f. Time of Day Rate:

This rate is limited to the addition of new or expanded industrial off-peak power usage within the service area. A Time of Day Rate (TDR) is available to distribution cooperatives for incremental load at industrial delivery points as defined in 1.a.(2). Such rate will apply during the eight-hour period beginning 10:01 p.m. and ending at 6:00 a.m. Any request for consideration of the TDR must be submitted to Big Rivers in writing and will become effective only upon Big Rivers' approval. Upon approval by Big Rivers, the 30-minute kW demand during these hours will not be used to determine the Billing Demand. Energy associated with the capacity used during this time of day in excess of the Billing Demand shall be considered TDR energy and shall be billed at a rate equal to 125 percent of the rate in Section 3.b.(2). This rate will be subject to the fuel adjustment clause as defined in A.3.c.

Big Rivers reserves the right to terminate the availability of this TDR at any time.
