RULES & REGULATIONS

- (a) Advise all wholesale customers that this level of fuel supplies has been reached.
- (b) Discontinue all emergency deliveries to neighboring utilities unless so ordered otherwise by KPSC or FERC.
- (6) To be initiated as a measure of last resort when fuel supplies are decreased to 15 days' operation of coal-fired generation at the daily burn rate resulting after implementation of the actions in the above Sections (1), (2), (3), (4), and (5) and a continued downward trend in coal stocks is anticipated:

- (a) Advise all wholesale customers of the number of days burn remaining.
- (b) As a last resort, implement load shedding procedures as required to preserve the integrity of the electrical system. This procedure shall be coordinated with the wholesale customers in order to assure the minimum impact upon those services which are necessary for the protection of human life and safety and for the protection of physical plant facilities.

c. Termination of Energy Emergency:

The Energy Emergency Control Program shall be terminated upon notice to the Commission, when the remaining days of operation of coal-fired generation is at least 20 days, coal deliveries have been resumed, and there is reasonable assurance that the coal stocks are being restored to adequate levels.
