STANDARD RATE SCHEDULE

R

Residential Rate

Applicable:

In all territory served.

Availability:

Available for single-phase residential service for lighting, heating, cooking, refrigeration, household appliances and other domestic purposes, subject to the special terms and conditions set forth on Tariff Sheets 27 and 28.

Rate:

First 20 kilowatt hours or less per month	80¢ net
Next 30 kilowatt hours per month	3.5¢ net per kwh
Next 70 kilowatt hours per month	2.5¢ net per kwh
Excess kilowatt hours per month	2.0¢ net per kwh

Minimum Bill:

80¢ net per meter per month.

Prompt Payment Provision:

The monthly bill will be rendered at the above net charges (including net minimum bills when applicable) plus an amount equivalent to 5% thereof, which amount will be deducted provided bill is paid within ten days from date.

Applicability of Rules:

Service under this rate schedule is subject to Company's rules and regulations governing the supply of electric service as incorporated in this Tariff.

STANDARD RIDER

Special Rate for Residential
Electric Space Heating Service

Applicable:

To Residential Rate R.

Availability:

During the eight monthly billing periods from October through May of the following year, a special rate of 1.5¢ per kilowatt hour will be applicable to that portion of Residential Rate R consumption in excess of 400 kilowatt hours per month to any residential customer who has permanently installed and in regular use during the heating season an approved type of electric space heating installation, wired for service at 240 volts, and designed and used as the primary and predominating source of his household space heating requirements. The eight monthly billing periods referred to above shall start with the monthly period covered by the regular October meter reading and shall end with the period covered by the regular meter reading in May of the succeeding year.

In the case of multiple dwelling units served through a single meter under Residential Rate R, the special rate of 1.5¢ per kilowatt hour herein provided for shall apply only to that portion of total monthly consumption in excess of 400 kilowatt hours multiplied by the number of individual family units thus served.

Special Conditions:

Service under this rider is available only upon written application and subject to Company's inspection for the purpose of establishing eligibility of Customer's heating installation for service hereunder.

LOUISVILLE GAS AND ELECTRIC COMPANY

2nd Rev. SHEET NO. 7

CANCELLING 1st Rev. SHEET NO. 7

P. S. C. OF KY. ELECTRIC NO. 2

STANDARD RATE SCHEDULE

GS

General Service Rate

Applicable:

In all territory served.

Availability:

Available to any customer for alternating current service, single-phase or three-phase, for lighting, power, and other general usage, measured and delivered at one of Company's standard distribution voltages. Service taken through each meter will be billed separately. If customer desires to take lighting service through a three-phase meter, he shall furnish and maintain any transformation or voltage regulatory equipment required for such lighting service.

Rate:

First	100 kilowatt-hours per month.....	4.0¢ net per kwh
Next	700 kilowatt-hours per month.....	3.0¢ net per kwh
Next	1200 kilowatt-hours per month.....	2.5¢ net per kwh
Excess	kilowatt-hours per month.....	2.0¢ net per kwh

Minimum Bill:

The minimum bill for single-phase service shall be 80¢ net per meter per month, except where a single phase service is installed especially to provide power for the operation of an electric welder, in which case the minimum bill applicable to three-phase service will apply.

4-12-66

The minimum bill for three-phase service shall be 40¢ net per horsepower of connected power load, but not less than \$2.00 net per meter per month. Horsepower of apparatus connected will be based on manufacturer's rating.

Prompt Payment Provision:

The monthly bill will be rendered at the above net charges (including net minimum bills when applicable) plus an amount equivalent to 5% thereof, which amount will be deducted provided bill is paid within ten days from date.

Minimum Bill Adjustments for Seasonal Air Conditioning Loads:

For the purpose of determining three-phase minimum bills hereunder, motors used solely for air conditioning equipment which is in service only during the period April 15 to October 15 will not be considered as part of customer's total connected power load on bills rendered for those months of the year when such air conditioning equipment is not in service. Provided, however, that for billing purposes air conditioning equipment shall not be considered as out of service for more than six months in any one year. In no event, however, shall the minimum bill for three-phase service be less than \$2.00 per month.

2nd Rev. SHEET NO. 9

CANCELLING 1st Rev. SHEET NO. 9

P. S. C. OF KY. ELECTRIC NO. 2

STANDARD RIDER

Special Rate for Non-Residential
Electric Space Heating Service

Applicable:

To General Service Rate GS.

Availability:

The special rate set forth in this rider shall be available during the eight monthly billing periods from October through May (hereinafter called "heating season") to customers regularly taking electric service under Rate GS. Such special rate shall apply to separately metered service to electric space heating equipment installed and operated in accordance with the terms and conditions herein set forth.

Rate:

For all consumption recorded on the separate meter during the heating season the net rate shall be 1.2¢ per kilowatt-hour. The prompt payment provision of Rate GS shall be applicable to service under this rider.

Minimum Bill:

The minimum charge for service under this rider shall be not less than \$65.00 per heating season, nor less than \$6.00 per kilowatt of connected load per heating season, whichever is the greater. This minimum charge is in addition to the regular monthly minimum of Rate GS, to which this rider applies; however, the heating equipment served hereunder shall not be included as a part of the customer's connected load for the purpose of establishing such regular monthly minimum.

Special Terms and Conditions:

1. Service under this rider is available only upon written application and subject to Company's inspection for the purpose of establishing eligibility of Customer's heating installation for service hereunder.
2. The design, type, and manner of operation of Customer's space heating installation served hereunder must be acceptable to Company. The heating equipment shall be of approved type, either resistance or heat pump, designed and used as the primary and predominating source of heat during the full heating season for a building or an enclosed and well-defined section of a building. Under no circumstances will this rider apply to an electric heating installation used as a supplement to some other form of space heating.
3. The heating equipment served hereunder shall be supplied with electrical energy through one or more special circuits so designed and constructed that no other electricity consuming devices may be connected thereto. Provided, however, that when heat pump, air cooling, or air

STANDARD RIDER

Special Rate for Non-Residential
Electric Space Heating Service

Applicable:

To General Lighting Rate GL and General Power Rate GP.

Availability:

The special rate set forth in this rider shall be available during the eight monthly billing periods from October through May (hereinafter called "heating season") to customers regularly taking electric service under Rate GL or GP. Such special rate shall apply to separately metered service to electric space heating equipment installed and operated in accordance with the terms and conditions herein set forth.

Rate:

For all consumption recorded on the separate meter during the heating season the net rate shall be 1.5 cents per kilowatt hour. Prompt payment provision of the rate schedule to which this rider applies shall be applicable to service under this rider.

Minimum Bill:

The minimum charge for service under this rider shall be not less than \$75.00 per heating season, nor less than \$7.00 per kilowatt of connected load per heating season, whichever is the greater. This minimum charge is in addition to the regular monthly minimum of the standard rate schedule to which this rider applies; however, the heating equipment served hereunder shall not be included as a part of the customer's connected load for the purpose of establishing such regular monthly minimum.

Special Terms and Conditions:

1. Service under this rider is available only upon written application and subject to Company's inspection for the purpose of establishing eligibility of Customer's heating installation for service hereunder.

2. The design, type, and manner of operation of Customer's space heating installation served hereunder must be acceptable to Company. The heating equipment shall be of approved type, either resistance or heat pump, designed and used as the primary and predominating source of heat during the full heating season for a building or an enclosed and well-defined section of a building. Under no circumstances will this rider apply to an electric heating installation used as a supplement to some other form of space heating.

Outdoor Lighting Service

Applicable:

In all territory served.

Availability:

To any customer who can be served in accordance with the special terms and conditions set forth herein and who is willing to contract for service in accordance with such special terms and conditions.

Character of Service:

This rate schedule covers electric lighting service to outdoor equipment for the illumination of streets, driveways, yards, lots and other outdoor areas. Company will provide, own and maintain the lighting equipment, as hereinafter described, and will furnish the electrical energy to operate such equipment. Service under this rate will be available on an automatically controlled dusk-to-dawn every-night schedule of approximately 4000 hours per year, and only to the types of lighting units specified herein.

Rates:

	<u>Rate per Month</u>
100 watt, 4000 lumen mercury vapor unit	\$ 3.50
175 watt, 8000 lumen mercury vapor unit	4.00
250 watt, 13,000 lumen mercury vapor unit	5.00
400 watt, 25,000 lumen mercury vapor unit	6.00
300 watt, 6000 lumen incandescent unit (Modified GE Form 79AD fixtures)	3.50
300 watt, 6000 lumen incandescent unit (GE Form 45 or equivalent)	4.00
189 watt, 2800 lumen incandescent unit	3.00
400 watt mercury vapor flood light	6.75

4-4-66

Special Terms and Conditions:

1. Company will furnish and install the lighting unit complete with lamp, fixture or luminaire, control device, and mast arm. The above rates contemplate installation on an existing pole in Company's system. If the location of an existing pole is not suitable for the installation of a lighting unit, the Company will extend its secondary conductor one span and install an additional pole for the support of such unit, the customer

Street Lighting Energy Rate

Applicable:

In all territory served.

Availability:

Available to Municipalities, County governments, divisions or agencies of the State or Federal governments, civic associations, and other public or quasi-public agencies for service to public street and highway lighting systems, where the municipality or other agency owns and maintains all street lighting equipment and other facilities on its side of the point of delivery of the energy supplied hereunder.

Rate:

2.0¢ net per kilowatt hour.

Conditions of Delivery:

1. Service hereunder will be metered except when, by mutual agreement of Company and customer, an unmetered installation will be more satisfactory from the standpoint of both parties. In the case of unmetered service, billing will be based on a calculated consumption taking into account the types of equipment served.

2. The location of the point of delivery of the energy supplied hereunder and the voltage at which such delivery is effected shall be mutually agreed upon by Company and the customer in consideration of the type and size of customer's street lighting system and the voltage which Company has available for delivery.

Applicability of Rules:

Service under this rate schedule is subject to Company's rules and regulations governing the supply of electric service as incorporated in this Tariff.

LC

Large Commercial Rate

Applicable:

In all territory served.

Availability:

Available for alternating current service to commercial customers whose entire lighting and power requirements at a single service location are purchased under this schedule and who guarantee a minimum demand of ten kilowatts for billing purposes.

Rate:

Demand Charge:

First 10 kilowatts of billing demand	\$1.80 per Kw per month
Next 990 kilowatts of billing demand	1.50 per Kw per month
Excess kilowatts of billing demand	1.30 per Kw per month

Energy Charge:

First 2,000 kilowatt hours per month	2.0¢ per kwh
Next 18,000 kilowatt hours per month	1.4¢ per kwh
Next 30,000 kilowatt hours per month	1.2¢ per kwh
Next 50,000 kilowatt hours per month	1.0¢ per kwh
Next 400,000 kilowatt hours per month	0.9¢ per kwh
Excess kilowatt hours per month	0.7¢ per kwh

Determination of Billing Demand:

The maximum demand for the month shall be the highest average load in kilowatts occurring during any fifteen-minute interval in the month as shown by maximum demand instrument. Where light and power service at a single service location are measured through separate meters the highest fifteen-minute demands for each character of service shall be combined for billing purposes.

4-4-66

The billing demand shall be the maximum demand determined as above, provided that in no case shall the billing demand for any month be taken as less than 10 kilowatts nor less than 50% of the maximum demand recorded during the preceding eleven months (exclusive of summer air conditioning equipment normally used only during the period from April 15 to October 15 of each year).
