STANDARD RIDER

Special Rate for Residential Electric Space Heating Service

Applicable:

To Residential Rate R.

Availability:

During the eight monthly billing periods from October through May of the following year, a special rate of 1.76¢ per kilowatt-hour will be applicable to that portion of Residential Rate R consumption in excess of 600 kilowatt-hours per month to any residential customer who has permanently installed and in regular use during the heating season an approved type of electric space heating installation, wired for service at 208 volts or higher, and designed and used as the primary and predominating source of his household space heating requirements. The eight monthly billing periods referred to above shall start with the monthly period covered by the regular October meter reading and shall end with the period covered by the regular meter reading in May of the succeeding year.

In the case of multiple dwelling units served through a single meter under Residential Rate R, the special rate of 1.76¢ per kilowatt-hour herein provided for shall apply only to that portion of total monthly consumption in excess of 600 kilowatt-hours multiplied by the number of individual family units thus served.

Fuel Clause:

The monthly amount computed at the charges specified above shall be increased or decreased in accordance with the Fuel Clause set forth on Sheet No. 24 of this Tariff.

Special Conditions:

Service under this rider is subject to Company's inspection for the purpose of establishing eligibility of Customer's heating installation for service hereunder.

Water Heating Rate

Applicable:

In all territory served.

Availability - RESTRICTED:

Available to residential and commercial customers for electric service to automatic storage electric water heaters of approved type, in conjunction with electric service for other purposes at the same location, under the terms and conditions herein specified. This rate schedule will continue to be available only to customers that were served hereunder on August 20, 1974, and will not be available for the addition of new customers.

Rate:

1.83¢ net per kilowatt-hour.

Fuel Clause:

The monthly amount computed at the charges specified above shall be increased or decreased in accordance with the Fuel Clause set forth on Sheet No. 24 of this Tariff.

Minimum Bill:

\$1.20 net per month per heater.

Prompt Payment Provision:

The monthly bill will be rendered at the above net charges (including net minimum bills when applicable) plus an amount equivalent to 5% thereof, which amount will be deducted provided bill is paid within 15 days from date.

Special Terms and Conditions:

1. To be eligible for service under this rate, water heaters must conform to the specifications herein set forth. Any water heater which does not conform to these specifications will be billed under the rate applicable to other electric service at the same premises.
2. Approved water heaters shall be of the automatic insulated storage type having a tank size not less than 30 gallons, equipped with either one or two 240-volt non-inductive heating elements, each controlled by a separate thermostat. Two element heaters shall be so connected that only one element can be in operation at any one time.
3. The water heater shall be served at 240 volts (nominal) through a separate meter over a special circuit run in conduit or approved flexible metallic cable with no service outlets in the circuit or on the heater.

General Service Rate

Applicable:

In all territory served.

Availability:

Available to any customer for alternating current service, single-phase or three-phase, for lighting, power, and other general usage, measured and delivered at one of Company's standard distribution voltages. Service taken through each meter will be billed separately. If customer desires to take lighting service through a three-phase meter, he shall furnish and maintain any transformation or voltage regulatory equipment required for such lighting service.

Rate:

First	100 kilowatt-hours per month.....	5.7 ¢ net per kwh
Next	700 kilowatt-hours per month.....	4.22¢ net per kwh
Next	1200 kilowatt-hours per month.....	3.42¢ net per kwh
Excess over 2,000 kilowatt-hours per month.....		2.86¢ net per kwh

Primary Service Discount:

A discount of 5% will be allowed on the monthly amount computed in accordance with the above charges when the customer takes service at distribution or transmission line voltage of 2300 volts or higher, and furnishes, installs, and maintains complete substation structure and all equipment necessary to take service at the voltage available at the point of connection.

Fuel Clause:

The monthly amount computed in accordance with the provision specified above shall be increased or decreased in accordance with the Fuel Clause set forth on Sheet No. 24 of this Tariff.

Minimum Bill:

The minimum bill for single-phase service shall be \$1.71 net per meter per month, except where a single-phase service is installed especially to provide power for the operation of an electric welder, in which case the minimum bill applicable to three-phase service will apply.

The minimum bill for three-phase service shall be \$4.28 net per meter per month. Provided, however, in unusual circumstances where annual kilowatt-hour usage is less than 1000 times the kilowatts of capacity required, Company may charge a minimum bill of not more than 40¢ net per month per horsepower of connected power load ("power" being defined as any usage other than lighting).

STANDARD RIDER

Special Rate for Non-Residential Electric
Space Heating Service - Rate GS

Applicable:

To General Service Rate GS.

Availability:

The special rate set forth in this rider shall be available during the eight monthly billing periods from October through May (hereinafter called "heating season") to customers regularly taking electric service under Rate GS. Such special rate shall apply to separately metered service to electric space heating equipment installed and operated in accordance with the terms and conditions herein set forth.

Rate:

For all consumption recorded on the separate meter during the heating season the rate shall be 1.76¢ net per kilowatt-hour. This special rate shall be subject to the Primary Service Discount, Fuel Clause and Prompt Payment Provision as are embodied in Rate GS. During the four non-heating season months any electric usage recorded on the separate space heating meter shall be combined with metered usage for other purposes at the same location and be billed at Rate GS.

Minimum Bill:

\$4.37 net per month for each month of the "heating season." This minimum charge is in addition to the regular monthly minimum of Rate GS to which this rider applies.

Special Terms and Conditions:

1. Service under this rider is available only upon written application and subject to Company's inspection for the purpose of establishing eligibility of customer's heating installation for service hereunder. All electrical equipment and wiring, including provision for the installation of Company's meters, shall be subject to the approval of the Company.
2. The design, type, and manner of operation of customer's space heating installation served hereunder must be acceptable to Company. The heating equipment shall be of approved type, designed and used as the primary and predominating source of heat during the full heating season for a building or an enclosed and well-defined section of a building. Under no circumstances will this rider apply to an electric heating installation used as a supplement to some other form of space heating.
3. The heating equipment served hereunder shall be supplied with electrical energy through one or more special circuits so designed and constructed that no other electricity consuming devices may be connected thereto. Provided, however, that when air cooling or air circulating equipment is

Public Street Lighting Service (Continued)

Special Terms and Conditions:

1. Overhead Service. The above rates contemplate installation on an existing pole in Company's system. If the location of an existing pole is not suitable for the installation of a lighting unit, the Company will extend its secondary conductor one span and install an additional pole for the support of such unit. If still further poles or conductors are required to extend service to the lighting unit, the customer will be required to make a non-refundable cash advance equal to the installed cost of such further facilities.

2. Underground Service. In all areas other than the downtown section of the City of Louisville designated by City ordinance as an underground district, the Company will provide a normal installation consisting of a plowed-in cable connection located in the streets of not more than 200 feet per unit. If additional facilities are required, the customer shall make a non-refundable cash advance equivalent to the installed cost of such excess facilities. Company may decline to install equipment and provide service thereto in locations deemed by Company as unsuitable for underground installation.

Within the aforesaid City of Louisville underground district, the Company will provide underground facilities in accordance with sound engineering practices.

3. Company will furnish and install the complete lighting unit. All lighting units, including poles, standards and conductors installed in accordance herewith shall be the property of Company, and Company shall have access to the same for maintenance, inspection and all other proper purposes. Company shall have the right to make other attachments to the poles and to further extend the conductors installed in accordance herewith when necessary for the further extension of its electric service.

4. Customer shall be responsible for any permit or authorization that may be required for the installation of the lighting units at the specified locations.

5. Company may decline to install equipment and provide service thereto in locations where, in Company's judgment, such equipment will be subject to unusual hazards or risk of damage.

6. Contracts for this service shall have a minimum fixed term of five years, and shall continue from month to month after such minimum fixed term until terminated by either party giving thirty days notice to the other. Company shall have the right at any time to discontinue service for non-payment of bill or other causes set forth in its General Rules

STANDARD RATE SCHEDULE

SLE

Street Lighting Energy Rate

Applicable:

In all territory served.

Availability:

Available to Municipalities, County governments, divisions or agencies of the State or Federal governments, civic associations, and other public or quasi-public agencies for service to public street and highway lighting systems, where the municipality or other agency owns and maintains all street lighting equipment and other facilities on its side of the point of delivery of the energy supplied hereunder.

Rate:

2.50¢ net per kilowatt-hour.

Fuel Clause:

The monthly amount computed at the charges specified above shall be increased or decreased in accordance with the Fuel Clause set forth on Sheet No. 24 of this Tariff.

Conditions of Delivery:

1. Service hereunder will be metered except when, by mutual agreement of Company and customer, an unmetered installation will be more satisfactory from the standpoint of both parties. In the case of unmetered service, billing will be based on a calculated consumption taking into account the types of equipment served.

2. The location of the point of delivery of the energy supplied hereunder and the voltage at which such delivery is effected shall be mutually agreed upon by Company and the customer in consideration of the type and size of customer's street lighting system and the voltage which Company has available for delivery.

Applicability of Rules:

Service under this rate schedule is subject to Company's rules and regulations governing the supply of electric service as incorporated in this Tariff.

STANDARD RATE SCHEDULE

TLE

Traffic Lighting Energy Rate

Applicable:

In all territory served.

Availability:

Available to municipalities, County governments, divisions of the state or Federal governments or any other governmental agency for service to traffic signals or other traffic lights which operate on a 24-hour all-day every-day basis, where the governmental agency owns and maintains all equipment on its side of the point of delivery of the energy supplied hereunder. In the application of this rate each point of delivery will be considered as a separate customer.

Rate:

3.28¢ net per kilowatt-hour.

Fuel Clause:

The monthly amount computed at the charges specified above shall be increased or decreased in accordance with the Fuel Clause set forth on Sheet No. 24 of this Tariff.

Minimum Bill:

\$1.00 net per month for each point of delivery.

Conditions of Service:

1. Service hereunder will be metered except when, by mutual agreement of Company and customer, an unmetered installation will be more satisfactory from the standpoint of both parties. In the case of unmetered service, billing will be based on a calculated consumption, taking into account the size and characteristics of the load, or on meter readings obtained from a similar installation.
2. The location of each point of delivery of energy supplied hereunder shall be mutually agreed upon by Company and the customer.
3. Traffic lights not operated on an all-day every-day basis will be served under General Service Rate GS.

Applicability of Rules:

Service under this rate schedule is subject to Company's rules and regulations governing the supply of electric service as incorporated in this Tariff.

STANDARD RATE SCHEDULE

LC

Large Commercial Rate

Applicable:

In all territory served.

Availability:

Available for alternating current service to any customer whose entire lighting and power requirements at a single service location are purchased under this schedule and who guarantee the minimum demand designated below under "Determination of Billing Demand."

Rate:

Demand Charge:

First 25 kilowatts of billing demand \$3.35 per Kw per month
 Next 975 kilowatts of billing demand \$3.00 per Kw per month
 Excess over 1000 kilowatts of billing demand \$2.80 per Kw per month

Energy Charge:

First 2,000 kilowatt-hours per month 2.26¢ per kwh
 Next 18,000 kilowatt-hours per month 1.78¢ per kwh
 Next 80,000 kilowatt-hours per month 1.49¢ per kwh
 Next 400,000 kilowatt-hours per month 1.40¢ per kwh
 Excess over 500,000 kilowatt-hours per month 1.30¢ per kwh

Determination of Billing Demand:

The maximum demand for the month shall be the highest average load in kilowatts occurring during any fifteen-minute interval in the month as shown by maximum demand instrument. Where light and power service at a single service location are measured through separate meters the highest fifteen-minute demands for each character of service shall be combined for billing purposes.

The billing demand shall be the maximum demand determined as above, provided that in no case shall the billing demand for any month be taken as less than 50% of the maximum demand recorded during the preceding eleven months nor less than a minimum billing demand of 25 kilowatts. Provided, however, that a minimum billing demand of 10 kilowatts shall apply to any customer served under this rate schedule on March 1, 1964, for such time after that date as his period of service under this schedule remains unbroken.

Load Factor Discount:

A discount of 2.0 mills (.20¢) per kilowatt-hour will be allowed on that portion of any customer's monthly kilowatt-hour consumption in excess of 360 hours use of his billing demand for the month.

STANDARD RIDER

Special Rate for Non-Residential Electric
Space Heating Service - Rate LC

Applicable:

To Large Commercial Rate LC.

Availability - Restricted:

The special rate set forth in this rider shall be available during the eight monthly billing periods from October through May (hereinafter called "heating season") to customers regularly taking electric service under Rate LC. Such special rate shall apply to separately metered service to electric space heating equipment installed and operated in accordance with the terms and conditions herein set forth. This rider will continue to be available only to customers that were served hereunder on August 20, 1975, and will not be available for the addition of new customers.

Rate:

For all consumption recorded on the separate meter during the heating season the rate shall be 1.76¢ net per kilowatt-hour. This special rate shall be subject to the Primary Service Discount, Fuel Clause and Prompt Payment Provision embodied in Rate LC.

During the four non-heating season months any electric usage recorded on the separate space heating meter shall be combined with metered usage for other purposes at the same location and be billed at the regular rate applicable to such other electric usage. The separate meter for space heating service under this rider will be equipped to measure kilowatts of maximum demand; however, during the eight months of the heating season demand readings of such meter will not be used for billing, and the special rate will be applied to kilowatt-hour readings only. During each of the remaining four months of the year, Rate LC will be applied to the combined 15-minute maximum demands and the combined kilowatt-hour consumptions of both the separately metered heating service and service for other purposes at the same location. (For service connected under this Rider prior to February 1, 1974, demands will be combined on a coincident basis.)

Minimum Bill:

The minimum charge per heating season for service under this rider shall be \$6.00 per kilowatt of connected heating load but not less than \$175.00 per heating season. This minimum charge is in addition to the regular monthly minimum of Rate LC to which this rider applies. However, demands attributable to service under this rider shall not be considered as part of the maximum demands to which the "50% ratchet" provision of Rate LC applies, nor shall demands attributable to air conditioning equipment served under Rate LC be used in applying such 50% ratchet provision.

8-77

DATE OF ISSUE January 19, 1976 DATE EFFECTIVE August 20, 1975

ISSUED BY B. Hudson Milner President Louisville, Kentucky

Issued by authority of an Order of the PSC of Ky. in Case No. 6220 dated 11/26/75

STANDARD RATE SCHEDULE

Fuel Clause

Applicable to: All rate schedules in this Tariff other than Rates PSL and OL.

The monthly amount computed in accordance with the provisions of each of the rate schedules to which this fuel clause is applicable shall be increased or decreased at a rate per kilowatt-hour of monthly consumption equivalent to the amount by which the Company's "Average Cost of Fuel per Kilowatt-hour" incurred during the preceding month is more or less than .55¢ per kilowatt-hour.

For the purpose of this Fuel Clause, the "Average Cost of Fuel per Kilowatt-hour" for any month shall be determined as follows:

- A. Compute the following for the month:
 1. Take total charges to Fuel expense account for those items listed in Account 151 of the Uniform System of Accounts for Class A and B Public Utilities and Licensees.
 2. Add that portion of the cost of energy purchased (other than on an economic dispatch basis) from other electric utilities that represents fuel costs.
 3. Add the energy cost of purchases from other electric utilities when scheduled on an economic dispatch basis to substitute for Company's own higher cost energy.
 4. Subtract that portion of charges for energy sold to other electric utilities that represents fuel costs.

- B. Compute the following for the month:
 1. Take total net Kwh produced by all of Company's production facilities.
 2. Add Kwh purchased from other electric utilities.
 3. Subtract Kwh sold to other electric utilities.
 4. Subtract Kwh used in Company's Electric Department operations, including Kwh furnished to the United States in connection with Hydro Plant license.
 5. Multiply by a fraction the denominator of which is 100 and the numerator of which is 100 minus the percentage transmission and distribution losses for the 12 preceding months.

- C. Divide the result of the computations in A by the result of the computations in B.

The determination of "Average Cost of Fuel per Kilowatt-hour" for any month shall be based on actual determinants to the extent practicable, and on estimates where necessary to effect a timely calculation. To the extent that such estimates differ from actual amounts as subsequently determined, the calculation for the next month shall reflect a correction of such deviations.

JUL 27 1977

DATE OF ISSUE July 6, 1977 DATE EFFECTIVE June 20, 1977
 ISSUED BY B. Hudson Milner President Louisville, Kentucky
NAME TITLE ADDRESS

STANDARD RATE SCHEDULE

Fuel Clause

Applicable to: All rate schedules in this Tariff other than Rate OL.

The monthly amount computed in accordance with the provisions of each of the rate schedules to which this fuel clause is applicable shall be increased or decreased at the rate of .103 mill (.0103¢) per kilowatt-hour of monthly consumption for each one cent per million Btu by which the average cost of fuel consumed during the preceding month is more or less respectively than 33.8¢ per million Btu. The average cost of fuel consumed during any month is that cost determined by dividing the total charges to the Fuel expense accounts during such month by the number of millions of Btu consumed; provided, however, that such average cost will be reduced to the extent that fuel purchased at higher than average cost is consumed in the production of energy for sale to other electric utility companies and is used as the basis of charging such other electric utility companies. The increase or decrease shall be made in direct proportion to the difference from the base fuel cost of 33.8¢ per million Btu, including differences of fractional parts of a cent.

The determination of average cost of fuel for any month shall be based on actual determinants to the extent practicable and on estimates where necessary to effect a timely calculation. To the extent that such estimates differ from actual amounts as subsequently determined, the calculation for the next month shall reflect a correction of such deviations.
