THE ENVIRONMENTAL SURCHARGE MECHANISM
OF LOUISVILLE GAS AND ELECTRIC COMPANY
FOR THE TWO-YEAR BILLING PERIOD ENDING
APRIL 30, 2015 - CASE NO. 2015-00222***

Dear Mr. Dyrdek:

As a result of an Order issued in LG&E's Environmental Cost Recovery (ECR) Review in Case No. 2015-00222 dated December 7, 2015, the Kentucky Public Service Commission authorized a roll-in of a portion of the current ECR factor into existing base rates, including the rates contained in the power contract designated Contract W2215-ENG-1291, as heretofore amended and modified. The roll-in results in an increase in demand charges effective with bills rendered on and after February 1, 2016.

The rates prescribed by the Commission for electric service rendered under the aforesaid contract, and effective with bills rendered on and after February 1, 2016, are set forth on the attached "**Fort Knox Electric Rate.**"

All other provisions of your contract, not specifically mentioned herein, remain the same as those in effect prior to the date of the Commission's Order of December 7, 2015, and all other Tariffs and Riders applicable to this contract will continue to apply.
