CHARACTER OF SERVICE

The Daily Firm Volume of the Buyer will be contracted for by the Seller from its supplier and no curtailment of this firm volume is planned. However, in the event of emergencies, shortages of gas, or force majeure, the Seller reserves the right to curtail the Daily Firm Volume of Buyer without incurring any liability for any loss, cost, damage, injury or expenses that may be sustained by the Buyer by reason of any such curtailment. It is understood that the Seller's primary obligation is to its domestic markets.

The Daily Curtailable Volume shall be on a curtailable basis only and the Seller shall have the right to curtail deliveries of gas hereunder whenever and to the extent necessary in its sole judgment. The Seller shall give the Buyer as much advance notice as possible of curtailment hereunder.

RATE

The rate levels applicable to service under this Rate Schedule are stated on the currently effective Sheet 4 of this tariff and are hereby incorporated into this Rate Schedule.

MINIMUM MONTHLY CHARGE

The minimum monthly charge each billing month for gas delivered or the right of the Buyer to receive same shall be the greater of:

- (a) Eight hundred ten dollars (\$810); or
- (b) The amount determined by applying the rates for the Firm Volume to a minimum monthly volume which shall be the product of fifty percent of the specified Daily Firm Volume times thirty.

During the development period, which shall be the first three (3) months of gas service to Buyer under this Rate Schedule, the minimum monthly charge described above will not be applicable. During such development period, Buyer shall be billed and shall pay an amount determined by multiplying the volumes of gas actually delivered during each billing month by the rates per Mcf that apply.

In the event of interruption in the delivery of gas by Seller or complete or partial suspension of operations by the Buyer resulting from force majeure, which results in the delivery of reduced firm volumes of gas by the Seller, the minimum monthly charge shall be reduced in direct proportion to the ratio which the number of days of curtailed service and complete or partial suspension of Buyer's operation bears to the total number of days in the billing month; provided, however, that in cases of Buyer's force majeure, the minimum monthly charge shall not be reduced to less than one hundred fifty dollars (\$150).

PURCHASED GAS ADJUSTMENT
APPLICABLE TO ALL RATE SCHEDULES

PURCHASED GAS ADJUSTMENT

The rates authorized herein are based upon the wholesale cost of gas to the Seller as computed upon rates of its wholesale suppliers then currently in effect under Federal Power Commission tariffs for interstate business. For the purpose of this purchased gas adjustment clause, these rates shall be considered as the base rate for purchased gas. In the event there is an increase in these base rates, the Seller shall within thirty days from the time it receives notice of the proposed change file with this Commission the following information:

- (1) A copy of the Federal Power Commission tariff effecting the change in the base rate and a statement relative to the effective date of such proposed change.
- (2) A statement setting out the details of gas purchased under the provision of the base rate for the latest available twelve months showing billing under the base rate and under the proposed revised rate applicable to this service.
- (3) A balance sheet as of the end of the latest twelve months period and a statement of operating expenses and revenues in the same detail as reported to this Commission in the Utility's Annual Report.
- (4) Such other information as this Commission may request for a proper determination of the purchased gas adjustment.

Upon receipt of this information this Commission will review the effect of the revised base rate on the operation of the Seller and will prior to the effective date of the revised base rate, but not less than thirty days from the date of the filing of the above prescribed information issue its Order setting out the purchased gas adjustment that the Seller shall apply to its rates.

In the event there is a decrease in purchased gas costs or refunds, the Seller shall file the information required in 1, 2 and 4 above.

Each such subsequent change shall be treated in the same manner as set forth above for the establishment of a new Purchased Gas Adjustment and for the establishment of a new Base Supplier Rate.
- (4) To allow for the effect of Company's cycle billing each change in Purchased Gas Adjustment shall become effective with meter readings taken on and after the date 15 days subsequent to date of the supplier increase or decrease giving rise to such change.

In the event that the Company receives from its supplier a refund of amounts paid to such supplier in respect of a prior period, the Company will make adjustments on the amounts charged to its customers under this provision, as follows:

- (1) The "Refundable Amount" shall be the amount received by the Company as a refund. Such Refundable Amount shall be divided by the number of thousand cubic feet of gas that Company estimates it will sell to its customers during the 12 month period commencing with the first day of the month following receipt of the refund, thus determining a "Refund Factor".
- (2) Effective with meter readings taken on and after the first day of the second month following receipt of the refund, the Company will reduce by the Refund Factor so determined the Purchased Gas Adjustment that would otherwise be applicable during such 12 month period.
