RULES & REGULATIONS

II. RULES AND REGULATIONS – ALL CUSTOMERS

A. GENERAL STATEMENT

Kentucky Frontier Gas, LLC has consolidated the operations of several natural gas utilities in Kentucky. This tariff details the conditions of service for all Customers served by Kentucky Frontier Gas operations.

The following Rules and Regulations are filed with the Public Service Commission of Kentucky, referred to as "PSC" or "Commission", as part of the natural gas tariff of the gas utility operations of Kentucky Frontier Gas, LLC, hereinafter "Company" or "the utility". These Rules and Regulations set forth the terms and conditions under which natural gas service is supplied and govern all classes of service in all systems and territories served by the utility. Service furnished by the Company is also subject to the Rules of the PSC. Copies of this tariff are available for any Customer's inspection at the offices of the Company. They are subject to termination, change, or modification, in whole or in part, at any time. Any waiver at any time of the Company's rights or privileges under these Rules & Regulations will not be deemed a waiver as to any later breach of these rules.

1) **COMMISSION'S RULES & REGULATIONS** All gas service rendered by the Company shall be in accordance with the Administrative Regulations by which gas utilities are governed by the Public Service Commission of Kentucky and all amendments thereto and modifications thereof which may be made by the Commission.

2) **COMPANY'S RULES & REGULATIONS** In addition to the Rules & Regulations prescribed by the Public Service Commission, all gas service rendered shall also be in accordance with the Rules and Regulations adopted by the Company.

3) **REFUSAL OF SERVICE** The Company reserves the right to refuse or to defer full service to an applicant where the existing mains are inadequate to serve the applicant's requirements without adversely affecting the service to customers already connected and being served.

B. APPLICATION FOR GAS SERVICE

Application for natural gas service may be made at the office of the Company. The Company may refuse service to any Customer who fails to comply with these Rules & Regulations. The

RULES & REGULATIONS

Company will not furnish service to any applicant who owes the Company any past due amount for service at any location, until all such indebtedness is paid in full.

The Company may require any applicant to sign a Service Contract before service is supplied. The use of natural gas service constitutes an agreement under which the Customer receives natural gas service, agrees to pay the Company therefore in accordance with the applicable Tariff rate schedule, and agrees to comply with the Rules and Regulations of the utility. The benefits and obligations of the agreement for service may not be assigned without written consent of the Company. A separate agreement will be made for each class of service at each separate location.

A Customer is defined as any individual, enterprise or legal entity classified as either a Residential or Commercial purchasing natural gas from the Company at each point of delivery, under each rate classification, contract or schedule.

C. CHOICE OF RATES

A schedule of rates is available at the office of the Company. When two or more rate schedules apply to a customer's service requirements, the Company will assist in selecting the most suitable rate. Applicant is responsible for the final selection of said rate, and Company assumes no liability for that selection.

D. TEMPORARY OR INTERMITTENT SERVICE

If service to Customer is to be temporary or intermittent in usage, service will be supplied in accordance with the applicable rate schedule. Service to mobile homes and trailers may be considered by the Company as temporary. All costs of main or service construction will be paid in advance by the Customer. If service is provided for more than 24 months the Company will refund any construction costs in excess of those allowed under the Service Extension Policy.

E. DEPOSITS

The Company requires each Customer to make a minimum cash deposit to initiate or re-establish gas service, or if there is a substantial increase in usage. Such deposit is not an advance payment

RULES & REGULATIONS

or partial payment of any bill for service, but is security for payment of bills for service to be applied against unpaid bills only in event service is discontinued.

Interest on such deposits will be calculated at a rate prescribed by the PSC for the period elapsed from date of deposit to date refunded, provided that such period is not less than six months, and provided further that such deposits will not draw interest after the date on which Company notifies Customer that deposit will be refunded or after service is discontinued. Interest will be paid upon refund of deposit.

Deposits shall be refunded after a one year period if the Customer has had no delinquency resulting in the issuance of a written Notification of Discontinuance of Service or no more than two late payments within any calendar year.

Deposits will be refunded when service is discontinued, or at the end of the one year deposit holding period, upon proof that person claiming deposit is legally entitled to same. On discontinuance of service, the Company reserves the right to apply the Customer's deposit and any interest accrued thereon against unpaid bills for service, and only the remaining balance of the deposit, if any, will be refunded.

In cases where the Applicant for new service is in default of payment of bills for any service previously rendered to Applicant, a settlement of the old account, or arrangement satisfactory to the Company for its settlement, will be required before the new service is rendered.

The Company may waive the deposit upon a Customer's showing of satisfactory credit and payment histories with Company and others, established income or local property ownership and no recent bankruptcy, or a suitable co-signor.

F. MONTHLY BILLS

Bills for service will be rendered monthly. The term "month" for billing purposes means the period between any two consecutive regular readings by the Company of the meters at the Customer's premises, such readings to be taken as nearly as may be practicable every thirty days. The timing of the meter cycle is selected by the Company.

RULES & REGULATIONS

If an initial or final bill is for a period less than the monthly billing period described above, the billing will include the monthly minimum charge plus actual gas usage from the prior meter reading.

If the Company is unable to read a meter after reasonable effort, the Customer will be billed on an estimated usage based on the best available information. When Company for any reason submits a bill to a Customer for utility service which contains an estimated reading or a no-charge, Company will include on such bill a notice informing Customer that the bill contains an estimate or no-charge.

All bills for service, including any excise tax, sales tax, franchise fee or the like imposed by governmental authority, are due and payable at the office of the Company, or to an authorized agent of the Company, not later than the due date shown on the bill. All bills are due upon presentation.

The bill will be considered as received by the Customer when mailed to, or left at, the location where service is used or at some other location that has been mutually agreed upon. If the Customer fails to receive a bill, the Company, upon request, will issue a duplicate. However, failure to receive a bill in no way exempts the Customer from payment, before delinquent date, for service rendered.

Customer usage is monitored during the billing process and any significant deviation from normal usage pattern will be assessed. Company will re-read or test meters and review billing calculations as part of its investigation. Company will inform Customer if any significant billing adjustment is needed.

If a Customer gives notice at the Company's office prior to the time that payment is due that the correctness of the bill is disputed, stating reasons, the Company will investigate the complaint. However, such notice disputing correctness of a bill shall not be sufficient reason for withholding payment. If the bill is found to be incorrect, the Company will refund the amount of overpayment or credit the amount of overpayment to the next bill rendered.

COMMISSION
OF KENTUCKY

RULES & REGULATIONS

have a suitable 12-month payment history and all accounts are paid in full. Customer shall make an application and sign a payment agreement for Budget Billing, acknowledging average usage and the calculated monthly payment.

The monthly amount to be paid under Budget Billing is calculated from the past twelve months' gas usage at the current gas rates rate, divided by 11 and rounded to the nearest dollar. Said monthly payment shall be made for eleven successive months beginning with the July billing month. The twelfth month's payment is a settlement amount equal to the difference between the total of the prior eleven months' payments and the actual billings for the twelve month period.

If the settlement amount is a credit balance the Company will issue a check to the Customer in the amount of the credit balance, or the Customer may elect to have the credit applied to future billings. If the settlement amount is a debit balance owed by the Customer, the total balance will be due and payable on the due date shown on the bill for the settlement month, except that in the event the debit balance exceeds \$100, the Customer may elect to pay the debit over a two month period with at least one half of the total debit balance payable in the settlement month. The Customer may continue on the Budget Billing Plan for succeeding years, in which case the settlement month for each year will occur in twelve month cycles starting with the beginning month.

If a Customer electing Budget Billing Plan fails to pay the budget billing obligation in any month, normal collection procedures shall be applicable for the outstanding budget billing amount. Upon termination of service of a Customer on the Budget Billing Plan, the entire balance amount of the account for actual usage shall be due and payable by Customer to Company if a debit balance exists or shall be refunded by Company to Customer if a credit balance exists.

The monthly budget billing amount will be adjusted for changes in the Company's base rates and for unusual changes in Purchased Gas Cost Adjustment due to major purchase gas cost changes from the Company's gas suppliers. No adjustment in monthly budget billing amounts will be made for normal Gas Cost Adjustment changes. Changes in Gas Cost Adjustment levels shall be considered unusual when such changes would result in a 10% or more increase or decrease in Customer's anticipated annual billing for gas service.

RULES & REGULATIONS

Qualifying customers may enter into a partial payment plan in accordance with 807 KAR 5:006(13)(2).

I. WINTER HARDSHIP RECONNECTION

Qualifying customers may have service reconnected pursuant to 807 KAR 5:006 (14) and (15) if conditions of the regulation are met.

J. MEASUREMENT OF GAS SERVICE

All deliveries of gas through Company facilities shall be metered.

The Company will install, own and maintain suitable metering equipment necessary for measuring the natural gas supplied. The Point of Delivery to the Customer is the outlet of the Company's meter.

Each class of natural gas service supplied will be metered and billed separately. All service to a Customer under one applicable rate schedule will be measured by a single meter installation and meter readings of one meter installation shall not be combined with meter readings of another meter installation for billing purposes, unless specifically allowed under the applicable tariff. Adjoining properties may be combined on a single meter installation at the Customer's expense, and served as a single Customer where such properties are controlled, occupied, and used for commercial purposes by a single enterprise engaged in the pursuit of a single business.

Service to the same Customer at different premises will be considered as service to separate Customers.

Standard delivery pressure and temperature of natural gas supplied by the Company is four (4) ounces per square inch above average atmospheric pressure, which is assumed to be 14.40 psia in the Company service area and sixty (60) degrees Fahrenheit. All meters shall be temperature-compensated. Where necessary, the volume of gas as registered on the service meter shall be adjusted to the foregoing conditions for billing purposes.

Customer shall not bypass, adjust, alter or tamper with Company meters or regulators for any reason, such actions being cause for immediate discontinuance of service. Customer shall not

RULES & REGULATIONS

construct any addition or structure over utility-owned mains, service lines, or meters, and shall not enclose exposed portion of gas service facilities with any unventilated enclosure. Customer shall immediately notify Company of any leak or defect observed in Company's facilities.

K. DISCONTINUANCE OF SERVICE AT CUSTOMER'S REQUEST

A Customer wishing to discontinue or transfer service should give at least three days' notice to Company to that effect, unless otherwise specified in the rate or contract applicable, in order to allow time for final meter reading and disconnection of service. Where such notice is not received by the Company, the Customer will be liable for service until final reading of the meter. Notice to discontinue service will not relieve a Customer from any minimum or guaranteed payment under any contract or applicable rate.

L. DISCONTINUANCE OF SERVICE BY COMPANY

Company may discontinue service upon not less than seven days' written notice to Customer, and to any Customer designated third party, of Company's intention to discontinue service:

- 1) If Customer fails to pay, or make arrangements for payment of, bills for service rendered as provided in these rules.
- 2) If Customer fails to comply with Company's Rules and Regulations after due notice of such failure is given by Company and reasonable time is allowed for compliance.
- 3) If Customer's use of service is detrimental to the natural gas service being furnished by Company to other Customers in the immediate vicinity or supplied from the same distribution system.

If discontinuance is for nonpayment of bills, the customer shall be given at least 10 days written notice, separate from the original bill, and cut-off shall be effected not less than twenty seven (27) days after the mailing date of the original bill, unless, prior to discontinuance, a residential customer presents to the utility a written certificate, signed by a physician, registered nurse, or public health officer, that such discontinuance will aggravate an existing illness or infirmity on the affected premises, in which case discontinuance may be effected not less than thirty (30) days

from the date the utility notifies the customer, in writing, of state and federal programs which may be available to aid in payment of bills and the office to contact for such possible assistance.

Discontinuance of service under (1) will not occur if: Customer makes full payment of outstanding bill, such payment to be made by cash or bona fide check to a Company representative or field employee unless Customer has twice previously tendered payment with check which was returned to the Company by the banking institution unpaid, and the second such check was returned within the most recent twelve month period, in which cases payment by cash or certified check is required to avoid termination.

Discontinuance of service shall only occur between 8:00 am and 4:00 pm, Monday through Thursday. Service may not be terminated on the day prior to, or the day of, a legal holiday.

Company may discontinue service at any time without notice:

- 1) If a condition or installation of any part of the Customers' gas piping or any appliance is found to be dangerous to life, health, or safety of any person. Company does not assume responsibility for, and will not be held liable for, ascertaining such condition.
- 2) Upon the receipt of a lawful request or order of the properly constituted authority applicable to Customer's gas service.
- 3) If service is found to have been restored by someone other than Company and the original cause for the discontinuance has not been cured. The Company does not assume responsibility and will not be held responsible for ascertaining such condition.
- 4) If Company metering and regulating equipment has been bypassed, adjusted, altered or tampered with.

M. RESTORATION OF SERVICE

Service which has been terminated due to failure to pay or make arrangements for payment of bills for service rendered will be restored if Customer pays all applicable collection and/or reconnection charges as stated in Charges for Rendering Service.

Where service has been discontinued as set forth in these rules, Company shall restore such service within 24 hours after elimination by Customer of the cause for discontinuance, unless extenuating circumstances prevent restoration. Extenuating circumstances includes, but is not limited to, the requirement that the Customer or a responsible individual designated by the Customer be at the premises at the time of restoration of service.

N. CONNECTION & RECONNECTION FEE

The Company shall charge the Customer a Connection or Reconnection Fee as set forth herein for the following services:

- 1) Initial Connection of gas service to a Customer;
- 2) Reconnection of gas service to a Customer who has requested discontinuance of service at the same premises within the past twelve months; and
- 3) Reconnection of gas service to a Customer whose service has been discontinued by the Company for any reason stated herein within the past twelve months.

O. METER TRANSFER FEE

The Company shall charge a Meter Transfer Fee as set forth herein:

- 1) For transfer of service at the same premises from one tenant to another, when the gas service is not otherwise changed or interrupted. Such Fee will be charged to the new Customer.
- 2) For transfer of service to a Customer from one premises to another.

P. RETURNED CHECK CHARGE

The Company shall charge a Returned Check Charge as set forth herein for each check that is returned to the Company as uncollectable by its bank, up to the maximum amount allowed under the statutes of the Commonwealth of Kentucky and any charges assessed by the bank.

in Case No. 2011-00443 dated April 30, 2013

RULES & REGULATIONS

Q. LATE PAYMENT CHARGE

The Company shall charge a Late Payment Charge on all bills not paid within 15 days of the billing date. Penalties are assessed only once on a past due amount.

R. DIVERSION OF NATURAL GAS

The existence of natural gas consuming devices installed ahead of the meter or any tampering or interfering with pipes, regulators or equipment connected to Company's distribution system or the damage to, alteration, or obstruction of any meter (including the breaking of meter seals and increasing regulator pressure) which will permit or make possible the use of natural gas without its proper registration on Company's meter shall constitute prima facie evidence of diversion of natural gas by the Customer in whose name service is being rendered, or by the person benefiting from the use of such diverted natural gas. In the event that a Company check meter registers more natural gas in the same interval of time than does the meter installed at Customer's premises after such meters have been tested and found to be registering within the limits of accuracy prescribed by the PSC, such fact shall also constitute prima facie evidence of diversion of natural gas.

In such instances, Company will, in any reasonable manner, compute the amount of diverted natural gas and shall have the right to enter Customer's premises and make an actual count of all natural gas consuming devices to aid in such computation. Where Company is unable to make such count, the computation will be based on any other available information, or estimated. Such computation will be made for the period beginning with the date on which Customer began using natural gas at the location where the diversion occurred, unless evidence proves the diversion commenced a later date, and ending with the date on which said diversion ceases. Bills for natural gas diverted, based upon the aforesaid computation, under the applicable rate effective during the period of diversion, plus the cost of investigating and confirming such diversion and disconnecting service, shall be due and payable upon presentation.

If service has been discontinued for diversion of natural gas, Company will not render service to Customer, or to any other person for Customer's use, at the same or any other location until:

- 1) Customer has paid all bills as set forth preceding, and

RULES & REGULATIONS

- 2) Customer has paid to Company or others the installation cost of such entrance and service equipment as is necessary to prevent further diversion of natural gas.

The foregoing rules pertaining to diversion of natural gas are not in any way intended to affect or modify any action or prosecution under the statutes of the Commonwealth of Kentucky.

S. EASEMENTS

Receipt of natural gas service by Customer shall be construed as an agreement with the property owner, granting to Company an easement for gas mains, services, meters, and other equipment of Company necessary to render service to Customer. If requested by Company and before or after service is connected, Customer will execute Company's standard form of right-of-way agreement, granting to Company, at no expense therefore, satisfactory easements for suitable location of Company's mains, services, meters and metering equipment, and other appurtenances on or across lands owned or controlled by Customer, and will furnish space and shelter satisfactory to Company for all apparatus of Company located on Customer's premises. In the event that Customer shall divide premises by sale in such manner that one parcel shall be isolated from streets where Company's gas mains are accessible, Customer shall grant or reserve an easement for gas service over parcel having access to gas mains for the benefit of the isolated parcel.

T. ACCESS FOR COMPANY'S EMPLOYEES AND AGENTS

Customer will provide access to its premises at all reasonable times for authorized employees and agents of the Company for any proper purpose incidental to the supplying of natural gas service.

U. REALLOCATION OR RESALE OF NATURAL GAS

Natural gas service supplied by the Company is for the exclusive use of the customer. The customer is expressly forbidden to re-allocate or resell gas for any purpose.

RULES & REGULATIONS

The customer shall furnish, install and maintain at his expense the necessary customer's service line extending from the Company's service connection at the main or property line to the meter riser at the inlet side of the meter or place of utilization of the gas.

The installation of the customer's service line shall be made in accordance with the requirements of the PSC and the Company's specifications covering location, installation, kind and size of pipe, type of pipe coating and method of connecting the joints of pipe.

The Customer, before purchasing equipment or beginning construction of a proposed installation, shall confer with the Company to determine if the type of service, capacity, and pressure desired by Customer is available, to determine if extensions of, or additions to, Company's facilities will be required; and to secure definite location of the Company's meter and point of delivery. The Company must also be notified in advance before any additions to or alterations of existing installations which will materially affect the existing gas consumption.

If required, any Customer-installed buried line shall be at least 1-inch diameter pipe (only API-rated coated steel or PE) from the meter to all appliances, without reduction in size except it may be reduced at the entrance to the room to the same size as the appliance connection. A stopcock shall be installed at the building wall if applicable, and at each appliance.

All gas piping and other natural gas appliances and equipment on the Customer's side of the point of delivery will be furnished, installed and maintained at all times by the Customer in conformity with good practice, the requirements of any public body having jurisdiction or appropriate gas piping codes, and in accordance with the Company's Rules and Regulations. However, Company accepts no liability for injury or damage caused by defects in Customer's piping or equipment.

No equipment or apparatus will be connected to Company's distribution system, the operation of which may cause such an abnormal pressure variation in said system as to impair or endanger the natural gas service supplied to other customers on said system or to adversely affect operation of Company's metering or pressure regulating equipment. In the event that equipment having a high instantaneous demand such as a gas engine is to be connected, Customer shall provide adequate pulsation or surge tank, shut off valves and other protective devices as may be required by Company. Customer shall, in every case, confer with Company before any equipment or apparatus requiring extremely close regulation of pressure or quality of gas is connected to Company's distribution systems.

RULES & REGULATIONS

When the Company is required by order of proper authorities to move or alter its existing distribution system, thereby necessitating a change in the location of the service line and the point of delivery, the Company will designate a new point of delivery to which the Customer, at its expense, will bring the customer-owned piping.

Service will be delivered to the Customer for each premise at one point of delivery to be designated by the Company. For the mutual protection of the Customer and the Company, only authorized employees of the Company are permitted to make connections between the Company's facilities and the Customer's gas service piping.

The Company reserves the right to require the Customer to reimburse the Company for any cost due to a change in meters or other apparatus or in their locations made at the request of the Customer. Meters and other Company equipment will be removed or relocated only by Company employees.

W. COMPANY FURNISHED EQUIPMENT:

The Company shall furnish, install and maintain at its expense the necessary service connection. The location of this service connection will be made at the discretion and judgment of the Company. The Company will furnish, install, and maintain at its expense the necessary meter, meter stand (including meter riser), regulators, and connections which will be located at or near the main service connection, property line or near the building, at the discretion or Judgment of the Company. Whenever practical, in the judgment of the Company, the location will be as near the supply main as possible and outside of buildings. Suitable sites or location for the meter, meter stand, including meter riser, regulator, and connections shall be provided by the customer, and the title to this equipment shall remain in the company, with the right to install, operate, maintain and remove same, and no charge shall be made by the customer for use of the premises

X. PROTECTION OF SUB-SURFACE FACILITIES

Customer shall consult Company regarding necessity of changing location of gas service before building any improvement, addition, or structure over the gas service pipe. Customer shall notify Company or the appropriate One-Call center before operating or permitting the operation

of any power excavating or ditching equipment in the proximity of Company's underground gas service on Customer's premises.

Y. SHORTAGE OF NATURAL GAS SUPPLY

In case of emergency causing a shortage of supply, Company shall have the right to grant preference to that service, which, in its sole opinion, is most essential to the public welfare. In general, the curtailment sequence would normally be:

- 1) Industrial and Commercial customers, except schools.
- 2) Schools.
- 3) Residential Customers.

Z. LIABILITY

All mains, services, apparatus, instruments, meters, regulators, and materials supplied by Company at its expense or under its standard policies will be and remain the property of the Company. Company's property shall not be worked upon or interfered with by Customer or other unauthorized person.

The Customer shall be responsible for any damage to or loss of Company's property located on Customer's premises, caused by or arising out of the acts, omissions or negligence of Customer or others, or the misuse or unauthorized use of Company's property by Customer or others. The cost of making good such loss and/or repairing such damage shall be paid by the Customer. Customer shall be held responsible for injury to Company's employees if caused by Customer's act, omissions or negligence.

The Customer shall be responsible for any injury to persons or damage to property occasioned or caused by the acts, omissions or negligence of the Customer or any of its agents, employees, or licensees, in installing, maintaining, operating, or using any of the Customer's piping, equipment, machinery, or apparatus and for injury and damage caused by defects in same.

Company shall not be liable for injury to persons, damage to property, monetary loss, or loss of business caused by accidents, acts of God, fires, floods, strikes, wars, authority or orders of government, or any other causes and contingencies beyond its control.

RULES & REGULATIONS

AA. INDEMNITY TO COMPANY

Customer shall hold the Company harmless and indemnify it against all claims and liability for injury to persons or damage to property when such damage or injury results from the facilities located on Customer's side of the point of delivery, unless caused by the negligence or wrongful acts of Company's agents or employees.

BB. INSIDE GAS SERVICES RENDERED BY COMPANY

The Company will not perform installation or maintenance services on customer facilities downstream of the meter. Some health- and safety-related services are provided by Company free of charge to its customers. Such services are limited to the following:

- 1) Response to gas leak complaints regardless of cause.
- 2) Response to fires regardless of cause.
- 3) Restore service when outage is caused by Company.
- 4) Bill investigations, meter and meter reading investigations, and routine maintenance of Company facilities.

CC. COMPLAINTS

The Company will investigate promptly all complaints made by its Customers and will keep a record of all written complaints which record will include: name and address of complainant, date, nature of complaint, and adjustment or disposition made. This record will be kept at least three years after the date of the complaint.

RULES & REGULATIONS

III. TYPES OF SERVICE

A. RESIDENTIAL SERVICE

Residential Service is the furnishing of natural gas for the exclusive use of the individual customer for domestic purposes: for cooking, water heating, space heating, clothes drying, and incineration, in a private home or individual living unit where only one household is served through a single meter. Service to buildings adjacent to the residence including garages, barns, and other minor buildings for use of the residents may also be served through the residential meter. Each family dwelling place or housekeeping unit shall be considered as a separate living unit if separately metered.

Where two or more separate living units in a private residence or apartment building are offered for rent and the entire building is supplied through one meter, such building shall be classified as a commercial establishment and shall not be entitled to a residential schedule, if different.

Rates specific to Residential Service are not applicable to service for commercial enterprises.

B. COMMERCIAL SERVICE

Commercial Service is the furnishing of natural gas for the exclusive use of the individual customer for cooking, water heating, space heating, heat applications, and miscellaneous purposes to commercial establishments, regardless of volumetric gas usage.

Any entity engaged in the operation of an enterprise, whether or not for profit, shall be considered a Commercial customer. Such enterprises will include but not be limited to retail and wholesale merchants, professional services, offices, restaurants, clubs, lodges, hotels and motels; apartment buildings, rooming houses, assisted living and multi-unit dwellings where more than one living unit is served through one meter; schools, government, churches and charitable institutions; mobile home parks, camp grounds, greenhouses, dairies, manufacturing, agriculture, livestock production, mining, oil and gas extraction, construction, communication, transportation, natural gas engine service, gas-fired power back-up service, and other uses. These enterprises may also be supplied under an industrial or large commercial rate if such exists.

Where the total load of a customer served at one point of delivery cannot be combined under one classification for billing purposes due to restrictions in the applicable schedule, customer shall so

arrange the piping so that each class of service can be separately metered and billed under the applicable schedule.

C. LARGE COMMERCIAL SERVICE

Large Commercial Service is the furnishing of natural gas for the exclusive use of the individual customer for cooking, water heating, space heating, heat applications, and miscellaneous purposes to commercial establishments with large gas requirements.

A Large Commercial customer is defined as a Commercial entity which has historically used, or could reasonably be expected to use, more than 12,000 MCF of gas per year.

The total load of a customer served to a building or group of contiguous and related buildings may be combined under this classification for billing purposes. Such building groups will include but not be limited to a school campus, a courthouse complex, a correctional facility and a medical or long-term care facility.

D. TRANSPORTATION SERVICE

Transportation Service is available to any person whose facilities connect or can be made to connect with the Company's facilities or who can cause their natural gas to be delivered to the company's facilities and who desires gas to be transported by the Company to a place of utilization not connected to the Company's facilities. Further, the person or persons desiring such transportation shall have executed a contract with the Company specifying the terms, rates and conditions of service.

RATE

The charge for service under this tariff shall be set forth in the contract for service.

TERMS AND CONDITIONS

Specific details relating to volumes, delivery points and other matters shall be covered by a separate contract.

The Company reserve the right to purchase all or part of the gas to be transported at the same price the transporter would have received at the delivery point less applicable transportation charges, shrinkage and compressor fuel cost.

RULES & REGULATIONS

Delivery of gas transported will be effected as nearly as practicable on the same day as the receipt.

It shall be the customer's responsibility to make all necessary arrangements, including regulatory approvals, required to deliver gas transported under this tariff.

The Company reserves the right to refuse to accept as that does not meet quality specifications.

The Company shall have the right at any time to curtail or interrupt the transportation or delivery of gas when, in the company's sole judgment, such curtailment or interruption is necessary to enable the Company to maintain deliveries to retail customers of higher priority or to respond to any emergency.

This transportation is available to any customer with a daily nominated volume (the level of daily volume in Mcf as requested by the customer to be transported and delivered by the company) which averages a minimum of 25 Mcf of gas per day for the billing period.

E. SPECIAL CONTRACTS

Commercial or industrial customers using 500 MCF per month or more may have service provided by special contract specifying all terms and conditions for service and rates, subject to approval by the PSC. Any Commercial or industrial customer without a special contract shall be charged the applicable tariff rate.

IV. STANDARDS OF SERVICE

A. UTILITY SYSTEM OPERATION & MAINTENANCE

The Company will construct, operate, and maintain its natural gas delivery systems in such manner as to furnish safe, adequate, and continuous natural gas service in accordance with the Rules & Regulations and the Operations & Maintenance Plan of the Company.

The Company will exercise reasonable diligence and care to furnish and deliver a continuous and sufficient supply of natural gas and to avoid any shortage or interruption. However, the Company shall not be liable for interruption, shortage, or insufficiency in the supply of natural gas, or for any injury, loss, or damage caused thereby, if same is due to causes beyond the control of the Company. These causes include but are not limited to accidents, breakdown of equipment, operations of supply pipelines and gas production facilities, storms and acts of God, civil disorders and authority and orders of government.

The Company will have the right to temporarily suspend the delivery of natural gas whenever necessary for the purpose of making repairs or improvements to its system. Whenever possible, the utility shall plan its work to minimize the disruption of service.

Interruptions of service will not relieve Customer from any charges for service actually provided by Company, nor will accidents to or failures of Customer's equipment or facilities not due to fault of Company, relieve Customer of payment of minimum charges under the rate or contract applicable.

B. TESTING EQUIPMENT

Meters will be tested using a certified bell prover. Pressure gauges used for gas measurement will be verified annually. The reference instruments used in calibrating the bell prover, pressure gauges, and other equipment shall have a higher degree of accuracy than the equipment being tested, which accuracy shall be traceable to the National Bureau of Standards.

C. METER ACCURACY

The Company will exercise reasonable means to determine and maintain the general accuracy of all natural gas meters in use. All meters will be tested for accuracy of adjustment and registration before installation and will be tested periodically in accordance with the test schedule set forth by the Company. If inaccuracy is found such meters shall be adjusted to

RULES & REGULATIONS

register within one per cent of accuracy when metering gas at twenty per cent (20%) of its rated capacity at one-half inch of water column differential pressure.

D. ROUTINE METER TEST SCHEDULES

The Company will routinely test its natural gas meters in accordance with the following schedule:

- 1) Diaphragm meters for Residential and small Commercial service (capacity smaller than 500 cfh) will be tested at least once every ten (10) years.
- 2) All larger meters (capacity 500 cfh or more) will be tested at least once every five (5) years.

Alternatively, the Company may use a statistical sampling method to test meters.

E. OTHER METER TESTS

The Company may test any of its meters at any time.

Upon written request of a Customer, the Company will test the accuracy of the service meter installed at Customer's premises. Any meter so tested will be considered accurate if the accuracy of the meter is within 2% plus or minus the calibrated test meter. There will be no charge to the Customer if the meter has not been tested within the past 12-month period, or if the meter proves to be inaccurate.

If any meter so tested is found to be more than 2% fast, the Company will adjust the natural gas used, as measured by such meter, by such percentage that the meter was found to be in error. The Company will re-bill the adjusted amount for a period of one-half the elapsed time since the last previous test, but not for more than six months. The Company will refund to Customer the difference between the amount paid by the Customer and the adjusted bills.

If any meter so tested is found to be more than 2% slow, the Company will similarly adjust the natural gas used for one-half the untested period up to six months, and may collect from the Customer the difference between the amount paid by the Customer and the adjusted bills.

If any meter is found not to register any gas usage for any period, the Company may collect for the natural gas estimated to be used but not registered on the meter. Estimated use shall be calculated by averaging the amounts used under similar weather or operating conditions during the period immediately preceding or subsequent to the period of non-registration, or over a corresponding period in a previous year. The period of time for which collection for non-

registered gas service may be made shall be limited only by the date on which the meter is determined to have become defective.

F. BILLING

The Company will exercise all reasonable means to assure accurate computation of all bills for natural gas service. If billing errors occur, Company shall refund to Customer the amount of any overcharge and shall have the right to collect from Customer the amount of any undercharge prior to the date of such billing error.

G. DEFINITION OF A CUBIC FOOT OF GAS

1) For purpose of testing natural gas, a standard cubic foot of gas shall be taken to be that amount of gas which occupies a volume of one cubic foot, dry, at a temperature of 60 degrees Fahrenheit and under an absolute pressure of 14.73 pounds per square inch.

2) For the purpose of volumetric measurement of gas to a Customer, a cubic foot of gas shall be taken to be the amount of gas which occupies a volume of 1 cubic foot under the conditions existing in such Customer's meter as and where installed. When gas is metered at a pressure in excess of 4 ounces above average local atmospheric pressure, a suitable correction factor shall be applied to provide for measurement of gas as if delivered and metered at a pressure of 4 ounces above average local atmospheric pressure.

H. HEATING VALUE

The Company will endeavor to maintain a consistent average heating value of natural gas sold by the Company. Each individual system has different sources of supply which range in heating value from 1,000 to 1,200 BTU per standard cubic foot. If necessary to supplement the supply of natural gas, the Company may, at its sole discretion, supply a mixture of liquefied natural gas, liquefied petroleum gases and air to deliver a mixture compatible with the gas-using equipment in each system.

RULES & REGULATIONS

The Company will maintain the gas pressure at the outlet of the meter with as little variation as practicable. For most customers, gas will be delivered at a pressure as close as practicable to 4 ounces per square inch above the average local atmospheric pressure.

Gas may be delivered at higher pressure at Customer's request or where operating conditions are such that the Company deems a higher pressure is necessary. Each Customer shall install and maintain at its expense any such additional pressure or flow-regulating equipment. Company reserves the right to specify the pressure at the delivery meter.

K. SERVICE EXTENSION POLICY

All extensions of Company systems to serve new Customers or to increase gas deliveries to existing Customers shall be made under the Rules and Regulations of the PSC.

The Company will make extensions from its existing distribution mains in all of its service areas in accordance with 807 KAR 5:022, Section 9. All extensions will be made dependent on the economic feasibility of the extension. Title to all extensions shall be and remain with the Company. In the event a deposit is placed with the Company, the amount of the refund shall not exceed the original deposit. Nothing shall be construed as to prohibit the Company from making at its expense greater extensions to its distribution mains or the granting of more favorable terms than prescribed, should its judgment so dictate, provided like extensions are made for other customers or subscribers under similar conditions.

L. LOCAL FRANCHISE TAX

There shall be added to the customer's bill as a separate item an amount equal to the proportionate part of any license, occupation, franchise or other similar fee or tax now or hereafter agreed to or imposed upon the Company by local taxing authorities, whether imposed by ordinance, franchise or otherwise, and which fee or tax is based upon a percentage of the gross receipts, net receipts, or revenues of the Company. Such amount shall be added exclusively to bills of customers receiving service within the territorial limits of the authority imposing the fee or tax. Where more than one such fee or tax is imposed, each of the charges or taxes applicable to each customer shall be added to the customer's bill as separately identified items.

RULES & REGULATIONS

V. PURCHASED GAS COST ADJUSTMENT (Non-farm tap rates)

A. PROCEDURE

The Company shall file a Quarterly Report with the Commission which shall contain an updated Gas Cost Recovery Rate (GCR) and shall be filed at least thirty (30) days prior to the beginning of each calendar quarter. The GCR shall become effective for billing with the final meter readings of the first billing cycle of each calendar quarter.

The gas cost recovery rates are comprised of:

EGC - the Expected Gas Cost component, on a dollar per MCF basis, which represents the average expected cost of gas supplies and may include fixed price, forward price and indexed price purchases. The purchases are reduced by any amounts injected into underground storage. The EGC includes withdrawals from underground storage at the average unit cost of working gas. The EGC includes the uncollectible gas costs portion of bad debt. In an effort to mitigate price volatility, the Company may contract with gas suppliers at fixed prices, at locked-in prices for gas to be delivered at future dates (forward price) and at index-based prices. These efforts can include the monthly or periodic layering of forward purchase volumes to help moderate the volatility of gas prices. The Company may consider published futures prices as well as price trends and price expectations at the time such decisions are made. Depending upon the circumstances, this volume can be up to the annual projected system requirements including storage needs.

RA - The supplier Refund Adjustment, on a dollar per MCF basis, which reflects refunds received from suppliers during the reporting period, plus interest at the average 90 day commercial paper rate for the calendar quarter. In the event of any large or unusual refunds, the Company may apply to the Public Service Commission for the right to depart from the refund procedure herein set forth.

AA - The Actual Adjustment, on a dollar per MCF basis, compensates for difference between the previous quarter's expected gas cost and the actual cost of gas during that quarter.

RULES & REGULATIONS

BA - The Balancing Adjustment, on a dollar per MCF basis, which compensates for any under or over collections which have occurred as a result of prior adjustments.

B. BILLING CALCULATION

The gas cost recovery rate to be applied to bills of customers shall equal the sum of the following:

$$GCR = EGC + RA + AA + BA$$

C. DEFINITIONS

“Average Expected Cost” means the cost of gas supplies, for injections/withdrawals into storage and the uncollectible gas costs portion of bad debt. Cost of gas supplies include associated transportation and storage charges, and propane which results from the application of suppliers' rates currently in effect, or reasonably expected to be in effect during the calendar quarter, on purchased volumes during the twelve month period ending with the reporting period to which the GCR will apply, divided by the corresponding sales volume. Where the calculations require the use of volumes used during a given period, and those volumes did not exist for a particular source for the entire period, or the Company expects the volumes to change substantially, the Company may make appropriate adjustments in its calculations. Any adjustments of this type shall be described in the quarterly Gas Cost Recovery Report.

“GCR” means the quarterly updated gas cost recovery rate applicable to the monthly consumption of customers (sum of the expected gas cost component plus the supplier refund adjustment plus the actual adjustment plus the balancing adjustment; i.e., $GCR = EGC + RA + AA + BA$).

“Calendar Quarters” means each of the four three-month periods of (1) August, September and October; (2) November, December and January; (3) February, March and April; and (4) May, June and July.

“Reporting Period” means the three (3) month accounting period that ended approximately sixty (60) days prior to the filing date of the updated gas recovery rates; i.e., the calendar quarter preceding that during which the most recent Quarterly Report was filed.

RULES & REGULATIONS

VI. PIPELINE REPLACEMENT PROGRAM (PRP)

Applicable to all utility customers receiving service under the Company's Rate Schedules.

A. CALCULATION OF PIPELINE REPLACEMENT RIDER SURCHARGE:

The PRP surcharge is based on the annual cost of replacing older metal pipe on the Frontier distribution systems.

B. PIPELINE REPLACEMENT PROGRAM FACTORS

All customers receiving service under Frontier's Rate Schedules, except farm tap customers, shall be assessed a monthly charge in addition to the Customer Charge component of their applicable rate schedule that will enable the Company to complete the pipeline replacement program.

The PRP Rider will be updated annually in order to reflect the impact of net plant additions from pipeline replacements. Such adjustment to the Rider will become effective with meter readings on and after the first billing cycle of May, and will reflect allocation of the required increase based on the distribution approved by the Commission.

VII. AMR & METER UPGRADE PROGRAM

Applicable to all customers receiving service under the Company's Rate Schedules.

All customers receiving service under Frontier's Rate Schedules, including farm tap customers, shall be assessed a monthly charge in addition to the Customer Charge component of their applicable rate schedule that will enable the Company to complete the Automated Meter Reading (AMR) and meter upgrade program.

Gas Cost Adjustment Clause – Farm Tap

The rates for farm tap service are based on the wholesale cost of gas to Kentucky Frontier Gas LLC as computed using rates of its wholesale supplier currently in effect. In the event there is an increase or decrease in wholesale gas cost, Kentucky Frontier shall file with this Commission the following information within 30 days:

1. A copy of the contract or wholesale supplier notification effecting the change in rate and a statement relative to the effective date of such proposed change.
2. A statement setting out gas sales for the most recent 12 months.
3. A statement setting out the details of gas purchased for the most recent 12 months showing billing from the supplier under the most recent rate and under the proposed supplier rate.

The difference between the amounts so determined shall be divided by Kentucky Frontier's sales for the most recent 12 months, provided Kentucky Frontier's line loss for the same 12 month period does not exceed five percent. If line loss exceeds five percent, the difference shall be divided by allowable sales calculated as (purchases x .95).

The unit charge or credit so determined, expressed in dollars per thousand cubic feet (Mcf), shall be the Gas Cost Adjustment and used for the establishment of a new base supplier gas cost rate.

In the event that the Company receives from its supplier a refund, bill adjustment, or credit of amount paid to such supplier in respect of a prior period, Kentucky Frontier will apply to the Commission within 30 days for authority to make adjustments to the rates charged to its farm tap customers under this provision as follows:

1. The "refundable amount" shall be the amount received by Kentucky Frontier as a refund. Such refundable amount shall be divided by the Mcf volume of gas that Kentucky Frontier estimates it will sell to its customers during the four-month period commencing with the first day of the month following receipt of the refunds, thus determining a "refund factor".

2. Upon Commission approval, Kentucky Frontier will reduce by the refund factor any Gas Cost Adjustment that would otherwise be applicable during such period.

3. In the event of any large or unusual refunds, Kentucky Frontier may apply to the Commission for the right to depart from the refund procedure set forth herein.

Upon receipt of the required information, the Commission shall review the proposed increase, reduction, or refund and, within 30 days from receipt of the information required, issue its Order setting out the proper revised farm tap rates or otherwise acting to investigate or suspend the proposed rates.

RULES AND REGULATIONS

A. GENERAL STATEMENT

Kentucky Frontier Gas, LLC has consolidated the operations of several natural gas utilities and farm tap suppliers in Kentucky. This tariff details the conditions of service for all Customers served by Kentucky Frontier Gas operations.

The following Rules and Regulations are filed with the Public Service Commission of Kentucky, hereinafter referred to as "Commission", as part of the natural gas tariff of the gas utility operations of Kentucky Frontier Gas, LLC, hereinafter "Company" or "the utility". These Rules and Regulations set forth the terms and conditions under which natural gas service is supplied and govern all classes of service in all systems and territories served by the utility. Service furnished by the Company is also subject to the Rules of the Commission.

Copies of this tariff are available for any Customer's inspection at the offices of the Company. They are subject to termination, change, or modification, in whole or in part, at any time.

Any waiver at any time of the Company's rights or privileges under these Rules & Regulations will not be deemed a waiver as to any later breach of these rules.

B. APPLICATION FOR GAS SERVICE

Application for natural gas service may be made at any office of the Company. The Company may refuse service to any Customer who fails to comply with these Rules & Regulations. The Company will not furnish service to any applicant who owes the Company any past due amount for service at any location, until all such indebtedness is paid in full.

The Company may require any applicant to sign a Service Contract before service is supplied. The use of natural gas service constitutes an agreement under which the Customer receives natural gas service, agrees to pay the Company therefore in accordance with the applicable Tariff rate schedule, and agrees to comply with the Rules and Regulations of the utility. The benefits and obligations of the agreement for service may not be assigned without written consent of the Company. A separate agreement will be made for each class of service at each separate location.

A Customer is defined as any individual, enterprise or legal entity classified as either a Residential or Commercial purchasing natural gas from the Company at each point of delivery, under each rate classification, contract or schedule.

C. CHOICE OF RATES

A schedule of rates is available at the offices of the Company. When two or more rate schedules apply to a customer's service requirements, the Company will assist in selecting the most suitable rate. Applicant is responsible for the final selection of said rate, and Company assumes no liability for that selection.

Rules and Regulations

TEMPORARY OR INTERMITTENT SERVICE

If service to Customer is to be temporary or intermittent in usage, service will be supplied in accordance with the applicable rate schedule. Service to mobile homes and trailers may be considered by the Company as temporary. All costs of main or service construction will be paid in advance by the Customer. If service is provided for more than 24 months the Company will refund any construction costs in excess of those allowed under the Service Extension Policy.

E. DEPOSITS

The Company requires each Customer to make a minimum cash deposit to initiate or re-establish gas service, or if there is a substantial increase in usage. The deposit amount should approximate 2 months of average gas usage. Such deposit is not an advance payment or partial payment of any bill for service, but is security for payment of bills for service, to be applied against unpaid bills only in event service is discontinued.

Simple interest on such deposits will be calculated at a rate not less than as prescribed by the Commission for the period elapsed from date of deposit to date refunded or service is terminated. Interest will be paid annually either by refund or credit to Customer's bill, except that no refund or credit will be made if Customer's bill is delinquent on the anniversary date of the deposit.

Deposits shall be refunded after a 10-year period if the Customer has had no delinquency resulting in the issuance of a written Notification of Discontinuance of Service.

Deposits will be refunded when service is discontinued, or at the option of the Company at any other time prior to the end of the deposit holding period, upon proof that person claiming deposit is legally entitled to same. On discontinuance of service, the Company reserves the right to apply the Customer's deposit and any interest accrued thereon against unpaid bills for service, and only the remaining balance of the deposit, if any, will be refunded.

In cases where the Applicant for new service is in default of payment of bills for any service previously rendered to Applicant, a settlement of the old account, or arrangement satisfactory to the company for its settlement, will be required before the new service is rendered.

The Company may waive the deposit upon a Customer's showing of satisfactory credit and payment histories with Company and others, established income or local property ownership and no recent bankruptcy, or a suitable co-signor.

F. MONTHLY BILLS

Bills for service will be rendered monthly. The term "month" for billing purposes means the period between any two consecutive regular readings by the Company of the meters at the Customer's

Rules and Regulations

premises, such readings to be taken as nearly as may be practicable every thirty days. The timing of the meter cycle is selected by the Company.

If an initial or final bill is for a period less than the monthly billing period described above, the billing will include the monthly minimum charge plus actual gas usage from the prior meter reading.

If the Company is unable to read a meter after reasonable effort, the Customer will be billed on an estimated usage based on the best available information. When Company for any reason submits a bill to a Customer for utility service which contains an estimated reading or a no-charge, Company will include on such bill a notice informing Customer that the bill contains an estimate or no-charge.

Any Franchise Fee or similar tax shall be added to the customer's bill as a separate item. Such fees are often agreed to or imposed upon utilities by local taxing authorities, and are typically based upon a percentage of the gross receipts. Such amount shall be added only to bills of customers receiving service within the territorial limits of the authority imposing the fee. Where more than one such charge is imposed, each of the charges applicable to each customer shall be added to the customer's bill as separately identified items.

All bills for service, including any excise tax, sales tax, franchise fee or the like imposed by governmental authority, are due and payable at an office of the Company, or to an authorized agent of the Company, not later than the Past Due Date shown on the bill. All bills are due upon presentation. The Past Due Date is usually 15 days after the date the bill was prepared.

The bill will be considered as received by the Customer when mailed to, or left at, the location where service is used or at some other location that has been mutually agreed upon. If the Customer fails to receive a bill, the Company, upon request, will issue a duplicate. However, failure to receive a bill in no way exempts the Customer from payment, before delinquent date, for service rendered.

Customer usage is monitored during the billing process and any significant deviation from normal usage pattern will be assessed. Company will re-read or test meters and review billing calculations as part of its investigation. Company will inform Customer if any significant billing adjustment is needed.

If a Customer gives notice at the Company's office prior to the time that payment is due that the correctness of the bill is disputed, stating reasons, the Company will investigate the complaint. However, such notice disputing correctness of a bill shall not be sufficient reason for withholding payment of subsequent undisputed bills. If the bill is found to be incorrect, the Company will refund the amount of overpayment or credit the amount of overpayment to the next bill rendered.

KENTUCKY PUBLIC SERVICE COMMISSION

G. BUDGET BILLING PLAN

Customers may elect, at their option, to pay monthly bills for service on a Budget Billing Plan. This option is available to Residential customers and small Commercial accounts at the option of the Company, which customers have a suitable 12-month payment history and all accounts are paid in full.

ISSUED January 15, 2009 EFFECTIVE March 1, 2009

BY [Signature]
TITLE Manager, Kentucky Frontier Gas LLC

BY AUTHORITY OF ORDER OF PSC OF KENTUCKY

KENTUCKY PUBLIC SERVICE COMMISSION
JEFF R. DEROUEN EXECUTIVE DIRECTOR
TARIFF BRANCH
<u>[Signature]</u>
EFFECTIVE 3/1/2009
PURSUANT TO 807 KAR 5:011 SECTION 9 (1)

RULES AND REGULATIONS

Customer shall make an application and sign a payment agreement for Budget Billing, acknowledging average usage and the calculated monthly payment.

The monthly amount to be paid under Budget Billing is calculated from the past twelve months' gas usage at the current gas rates rate, divided by 11 and rounded to the nearest dollar. Said monthly payment shall be made for eleven successive months beginning with the July billing month. The twelfth month's payment is a settlement amount equal to the difference between the total of the prior eleven months' payments and the actual billings for the twelve month period.

If the settlement amount is a credit balance the Company will issue a check to the Customer in the amount of the credit balance, or the Customer may elect to have the credit applied to future billings. If the settlement amount is a debit balance owed by the Customer, the total balance will be due and payable on the due date shown on the bill for the settlement month, except that in the event the debit balance exceeds \$100, the Customer may elect to pay the debit over a two month period with at least one half of the total debit balance payable in the settlement month. The Customer may continue on the Budget Billing Plan for succeeding years, in which case the settlement month for each year will occur in twelve month cycles starting with the beginning month.

If a Customer electing Budget Billing Plan fails to pay the budget billing obligation in any month, normal collection procedures shall be applicable for the outstanding budget billing amount. Upon termination of service of a Customer on the Budget Billing Plan, the entire balance amount of the account for actual usage shall be due and payable by Customer to Company if a debit balance exists or shall be refunded by Company to Customer if a credit balance exists.

The monthly budget billing amount will be adjusted for changes in the Company's base rates and for unusual changes in Purchased Gas Cost Adjustment due to major purchase gas cost changes from the Company's gas suppliers. No adjustment in monthly budget billing amounts will be made for normal Gas Cost Adjustment changes. Changes in Gas Cost Adjustment levels shall be considered unusual when such changes would result in a 10% or more increase or decrease in Customer's anticipated annual billing for gas service.

H. MEASUREMENT OF GAS SERVICE

The Company will install, own and maintain the service connection and metering equipment necessary for measuring the natural gas supplied. The Point of Delivery to the Customer is the outlet of the Company's meter. The location of the service connection and meter are at the discretion of the Company.

Each class of natural gas service supplied will be metered and billed separately. All service to a Customer under one applicable rate schedule will be measured by a single meter installation and meter readings of one meter installation shall not be combined with meter readings of another meter installation for billing purposes, unless specifically allowed under the applicable tariff. Adjoining

RULES AND REGULATIONS

properties may be combined on a single meter installation at the Customer's expense, and served as a single Customer where such properties are controlled, occupied, and used for commercial purposes by a single enterprise engaged in the pursuit of a single business.

Service to the same Customer at different premises will be considered as service to separate Customers.

Standard delivery pressure and temperature of natural gas supplied by the Company is four (4) ounces per square inch above average atmospheric pressure, which is assumed to be 14.40 psia in the Company service area and sixty (60) degrees Fahrenheit. Where necessary, the volume of gas as registered on the service meter shall be adjusted to the foregoing conditions for billing purposes.

Customer shall not bypass, adjust, alter or tamper with Company meters or regulators for any reason, such actions being cause for immediate discontinuance of service. Customer shall not construct any addition or structure over utility-owned mains, service lines, or meters, and shall not enclose exposed portion of gas service facilities with any unventilated enclosure. Customer shall immediately notify Company of any leak or defect observed in Company's facilities.

I. DISCONTINUANCE OF SERVICE AT CUSTOMER'S REQUEST

A Customer wishing to discontinue or transfer service should give at least three days notice to Company to that effect, unless otherwise specified in the rate or contract applicable, in order to allow time for final meter reading and disconnection of service. Where such notice is not received by the Company, the Customer will be liable for service until final reading of the meter. Notice to discontinue service will not relieve a Customer from any minimum or guaranteed payment under any contract or applicable rate.

J. DISCONTINUANCE OF SERVICE BY COMPANY

Company may discontinue service upon not less than 10 days' written notice to Customer, and to any Customer designated third party, of Company's intention to discontinue service:

- 1) If Customer fails to pay, or make arrangements for payment of, bills for service rendered as provided in these rules. Qualifying customers may enter into a Partial Payment Plan in accordance with 807 KAR 5:006(13) (2).
- 2) If Customer fails to comply with Company's Rules and Regulations after due notice of such failure is given by Company and reasonable time is allowed for compliance.
- 3) If Customer's use of service is detrimental to the natural gas service being furnished by Company to other Customers in the immediate vicinity or supplied from the same distribution system.

If discontinuance is for nonpayment of bills, the customer shall be given at least 10 days written notice, separate from the original bill, and cut-off shall be effected not less than twenty seven (27) days after the mailing date of the original bill, unless, prior to discontinuance, a residential customer presents to the utility a written certificate, signed by a physician, registered nurse, or public health officer, that such

RULES AND REGULATIONS

discontinuance will aggravate an existing illness or infirmity on the affected premises, in which case discontinuance may be effected not less than thirty (30) days from the date the utility notifies the customer, in writing, of state and federal programs which may be available to aid in payment of bills and the office to contact for such possible assistance.

Discontinuance of service under (1) will not occur if: Customer makes full payment of outstanding bill, such payment to be made by cash or bona fide check to a Company representative or field employee unless Customer has twice previously tendered payment with check which was returned to the Company by the banking institution unpaid, and the second such check was returned within the most recent twelve month period, in which cases payment by cash or certified check is required to avoid termination.

Discontinuance of service shall only occur between 8:00 am and 4:00 pm, Monday through Thursday. Service may not be terminated on the day prior to, or the day of, a legal holiday.

Company may discontinue service at any time without notice:

- 1) If a condition or installation of any part of the Customers' gas piping or any appliance is found to be dangerous to life, health, or safety of any person. Company does not assume responsibility for, and will not be held liable for, ascertaining such condition.
- 2) Upon the receipt of a lawful request or order of the properly constituted authority applicable to Customer's gas service.
- 3) If service is found to have been restored by someone other than Company and the original cause for the discontinuance has not been cured. The Company does not assume responsibility and will not be held responsible for ascertaining such condition.
- 4) If Company metering and regulating equipment has been bypassed, adjusted, altered or tampered with.

K. RESTORATION OF SERVICE

Service which has been terminated due to failure to pay or make arrangements for payment of bills for service rendered will be restored if Customer pays all applicable collection and/or reconnection charges.

Where service has been discontinued as set forth in these rules, Company shall restore such service within 24 hours after elimination by Customer of the cause for discontinuance, unless extenuating circumstances prevent restoration. Extenuating circumstances includes, but is not limited to, the requirement that the Customer or a responsible individual designated by the Customer be at the premises at the time of restoration of service.

Qualifying customers for Winter Hardship Reconnection may have service reconnected pursuant to 807 KAR 5:006 (14) and (15) if conditions of the regulation are met.

L. CONNECTION & RECONNECTION FEE

The Company may charge the Customer a Connection or Reconnection Fee as set forth herein for the following services:

- 1) Initial Connection of gas service to a Customer;
- 2) Reconnection of gas service to a Customer who has requested discontinuance of service at the same premises within the past twelve months; and
- 3) Reconnection of gas service to a Customer whose service has been discontinued by the Company for any reason stated herein within the past twelve months.

M. METER TRANSFER FEE

The Company may charge a Meter Transfer Fee as set forth herein:

- 1) For transfer of service at the same premises from one tenant to another, when the gas service is not otherwise changed or interrupted. Such Fee will be charged to the new Customer.
- 2) For transfer of service to a Customer from one premises to another.

N. RETURNED CHECK CHARGE

The Company may charge a Returned Check Charge as set forth herein for each check that is returned to the Company as uncollectable by its bank.

O. LATE PAYMENT CHARGE AND TRIP CHARGE

The Company may charge a Late Payment Charge on all bills not paid by the Past Due Date marked on the bill. Penalties are assessed only once on a past due amount.

The Company may charge a Trip Charge when an extra trip is made by a Company employee to collect a delinquent bill after proper notice.

RULES AND REGULATIONS

P. DIVERSION OF NATURAL GAS

The existence of natural gas consuming devices installed ahead of the meter or any tampering or interfering with pipes, regulators or equipment connected to Company's distribution system or the damage to, alteration, or obstruction of any meter (including the breaking of meter seals and increasing regulator pressure) which will permit or make possible the use of natural gas without its proper registration on Company's meter shall constitute prima facie evidence of diversion of natural gas by the Customer in whose name service is being rendered, or by the person benefiting from the use of such diverted natural gas. In the event that a Company check meter registers more natural gas in the same interval of time than does the meter installed at Customer's premises after such meters have been tested and found to be registering within the limits of accuracy prescribed by the Commission, such fact shall also constitute prima facie evidence of diversion of natural gas.

In such instances, Company will, in any reasonable manner, compute the amount of diverted natural gas and shall have the right to enter Customer's premises and make an actual count of all natural gas consuming devices to aid in such computation. Where Company is unable to make such count, the computation will be based on any other available information, or estimated. Such computation will be made for the period beginning with the date on which Customer began using natural gas at the location where the diversion occurred, unless evidence proves the diversion commenced a later date, and ending with the date on which said diversion ceases. Bills for natural gas diverted, based upon the aforesaid computation, under the applicable rate effective during the period of diversion, plus the cost of investigating and confirming such diversion and disconnecting service, shall be due and payable upon presentation.

If service has been discontinued for diversion of natural gas, Company will not render service to Customer, or to any other person for Customer's use, at the same or any other location until:

- 1) Customer has paid all bills as set forth preceding, and
- 2) Customer has paid to Company or others the installation cost of such entrance and service equipment as is necessary to prevent further diversion of natural gas.

The foregoing rules pertaining to diversion of natural gas are not in any way intended to affect or modify any action or prosecution under Kentucky statutes.

Q. EASEMENTS

Receipt of natural gas service by Customer shall be construed as an agreement with the property owner, granting to Company at no charge an easement for gas mains, services, meters, and other equipment of Company necessary to render service to Customer. If requested by Company and before or after service is connected, Customer will execute Company's standard form of right-of-way agreement, granting to Company, at no expense therefore, satisfactory easements for suitable location of Company's mains, services, meters and metering equipment, and other appurtenances on or across lands owned or controlled by Customer, and will furnish space and shelter satisfactory to Company for all apparatus of

RULES AND REGULATIONS

Company located on Customer's premises. In the event that Customer shall divide premises by sale in such manner that one parcel shall be isolated from streets where Company's gas mains are accessible, Customer shall grant or reserve an easement for gas service over parcel having access to gas mains for the benefit of the isolated parcel.

R. ACCESS FOR COMPANY'S EMPLOYEES AND AGENTS

Customer will at no charge provide access to its premises at all reasonable times for authorized employees and agents of the Company for any proper purpose incidental to the supplying of natural gas service.

S. REALLOCATION OR RESALE OF NATURAL GAS

Natural gas service supplied by the Company is for the exclusive use of the customer. The customer is expressly forbidden to re-allocate or resell gas for any purpose.

T. CUSTOMER'S INSTALLATION

The Customer shall furnish, install and maintain at his expense all lines and equipment from the Point of Delivery to the place of gas utilization. Before purchasing equipment or beginning construction of a proposed installation, Customer shall confer with the Company to determine if the type of service, capacity, and pressure desired by Customer is available, to determine if extensions of, or additions to, Company's facilities will be required; and to secure definite location of the Company's meter and point of delivery. The Company must also be notified in advance before any additions to or alterations of existing installations which will materially affect the existing gas consumption.

If required, any Customer-installed buried line shall be at least 1-inch diameter pipe (only US DOT-approved coated steel or PE) from the meter to all appliances. The size cannot be reduced until it enters a room with an appliance, where it may be reduced to the same size as the appliance connection. A stopcock shall be installed at the building wall if applicable, and at each appliance.

All gas piping and other natural gas appliances and equipment on the Customer's side of the point of delivery will be furnished, installed and maintained at all times by the Customer in conformity with good practice, the requirements of PSC or any public body having jurisdiction or appropriate gas piping codes, and in accordance with the Company's Rules and Regulations. However, Company accepts no liability for injury or damage caused by defects in Customer's piping or equipment.

No equipment or apparatus will be connected to Company's distribution system, the operation of which may cause such an abnormal pressure variation in said system as to impair or endanger the natural gas service supplied to other customers on said system or to adversely affect operation of Company's metering or pressure regulating equipment. In the event that equipment having a high instantaneous demand such as a gas engine is to be connected, Customer shall provide adequate pulsation or surge tank, shut off valves and other protective devices as may be required by Company. Customer shall, in

RULES AND REGULATIONS

every case, confer with Company before any equipment or apparatus requiring extremely close regulation of pressure or quality of gas is connected to Company's distribution systems.

When the Company is required by order of proper authorities to move or alter its existing distribution system, thereby necessitating a change in the location of the service line and the point of delivery, the Company will designate a new point of delivery to which the Customer, at its expense, will bring the customer-owned piping.

Service will be delivered to the Customer for each premise at one point of delivery to be designated by the Company. For the mutual protection of the Customer and the Company, only authorized employees of the Company are permitted to make connections between the Company's facilities and the Customer's gas service piping.

The Company reserves the right to require the Customer to reimburse the Company for any cost due to a change in meters or other apparatus or in their locations made at the request of the Customer. Meters and other Company equipment will be removed or relocated only by Company employees.

U. PROTECTION OF SUB-SURFACE FACILITIES

Customer shall consult Company regarding necessity of changing location of gas service before building any improvement, addition, or structure over the gas service pipe. Customer shall notify Company or the appropriate One-Call center before operating or permitting the operation of any power excavating or ditching equipment in the proximity of Company's underground gas service on Customer's premises.

V. SHORTAGE OF NATURAL GAS SUPPLY

In case of emergency causing a shortage of supply, Company shall have the right to grant preference to that service, which, in its sole opinion, is most essential to the public welfare. In general, the curtailment sequence would normally be:

- 1) Industrial and Commercial customers, except schools.
- 2) Schools.
- 3) Residential Customers.

 KENTUCKY PUBLIC SERVICE COMMISSION

W. LIABILITY

All mains, services, apparatus, instruments, meters, regulators, and materials supplied by Company at its expense or under its standard policies will be and remain the property of the Company. Company's property shall not be worked upon or interfered with by Customer or other unauthorized person.

The Customer shall be responsible for any damage to or loss of Company's property located on Customer's premises, caused by or arising out of the acts, omissions or negligence of Customer or others, or the misuse or unauthorized use of Company's property by Customer or others. The cost of making good such loss and/or repairing such damage shall be paid by the Customer. Customer shall be

RULES AND REGULATIONS

held responsible for injury to Company's employees if caused by Customer's act, omissions or negligence.

The Customer shall be responsible for any injury to persons or damage to property occasioned or caused by the acts, omissions or negligence of the Customer or any of its agents, employees, or licensees, in installing, maintaining, operating, or using any of the Customer's piping, equipment, machinery, or apparatus and for injury and damage caused by defects in same.

Company shall not be liable for injury to persons, damage to property, monetary loss, or loss of business caused by accidents, acts of God, fires, floods, strikes, wars, authority or orders of government, or any other causes and contingencies beyond its control.

X. INDEMNITY TO COMPANY

Customer shall hold the Company harmless and indemnify it against all claims and liability for injury to persons or damage to property when such damage or injury results from the facilities located on Customer's side of the point of delivery, unless caused by the negligence or wrongful acts of Company's agents or employees.

Y. INSIDE GAS SERVICES RENDERED BY COMPANY

The Company will not perform installation or maintenance services on customer facilities downstream of the meter. Some health- and safety-related services are provided by Company free of charge to its customers. Such services are limited to the following:

- 1) Response to gas leak complaints regardless of cause.
- 2) Response to fires regardless of cause.
- 3) Restore service when outage is caused by Company.
- 4) Bill investigations, meter and meter reading investigations, and routine maintenance of Company facilities.

Z. COMPLAINTS

The Company will investigate promptly all complaints made by its Customers and will keep a record of all written complaints which record will include: name and address of complainant, date, nature of complaint, and adjustment or disposition made. This record will be kept at least three years after the date of the complaint.

RULES AND REGULATIONS

RESIDENTIAL SERVICE

AA. DEFINITION OF RESIDENTIAL SERVICE

Residential Service is the furnishing of natural gas for the exclusive use of the individual customer for domestic purposes: for cooking, water heating, space heating, clothes drying, and incineration, in a private home or individual living unit where only one household is served through a single meter. Service to buildings adjacent to the residence including garages, barns, and other minor buildings for use of the residents may also be served through the residential meter. Each family dwelling place or housekeeping unit shall be considered as a separate living unit if separately metered.

Where two or more separate living units in a private residence or apartment building are offered for rent and the entire building is supplied through one meter, such building shall be classified as a commercial establishment and shall not be entitled to a residential schedule.

Except as specifically provided herein, Residential Service rates are not applicable to service for commercial enterprises as defined herein.

COMMERCIAL SERVICE

AB. DEFINITION OF COMMERCIAL SERVICE

Commercial Service is the furnishing of natural gas for the exclusive use of the individual customer for cooking, water heating, space heating, heat applications, and miscellaneous purposes to commercial establishments.

Any entity engaged in the operation of an enterprise, whether or not for profit, shall be considered a Commercial customer. Such enterprises will include but not be limited to retail and wholesale merchants, professional services, offices, restaurants, clubs, lodges, hotels and motels; apartment buildings, rooming houses, assisted living and multi-unit dwellings where more than one living unit is served through one meter; schools, government, churches and charitable institutions; mobile home parks, camp grounds, greenhouses, dairies, manufacturing, agriculture, livestock production, mining, oil and gas extraction, construction, communication, transportation, natural gas engine service, gas-fired power back-up service, and other uses.

These enterprises may also be supplied under a large commercial rate if such exists. Large Commercial service is defined as any Commercial customer using 18,000 mcf per year or more.

Where the total load of a customer served at one point of delivery cannot be combined under one classification for billing purposes due to restrictions in the applicable schedule, customer shall so arrange the piping so that each class of service can be separately metered and billed under the applicable schedule.

RULES AND REGULATIONS

FARM TAP SERVICE

AC. FARM TAP SERVICE RULES

Farm Tap Service is the furnishing of natural gas to Residential and Commercial customers not from a typical distribution system operated at 60 psig or lower, but from a direct connection to a high-pressure transmission or gathering pipeline operated by Company or others. In addition to the Rules & Regulations which apply to all customers, these rules and regulations apply specifically to Farm Tap customers:

- 1) All service connections to a high-pressure pipeline shall be subject to the special requirements, consent and approval of the Owner of the pipeline, and of the Company if not the pipeline Owner.
- 2) Prior to initiating service, an application and service agreement specific to the owner of the pipeline shall be executed by Customer and approved by Owner and Company. Customer shall pay Farm Tap Fee and deposit as required.
- 3) The pipeline Owner shall make the tap on the pipeline.
- 4) The Company will install regulators, meter, equipment and connections as necessary to provide service to Customer, which equipment shall be installed on Customer's premises at or as near the pipeline as is practical. Customer shall provide suitable meter location at no cost to Company or pipeline Owner, who each shall have the right of ingress, egress and regress to and from this location at any time without charges from Customer.
- 5) Customer shall install and maintain any service line and facilities extending from the outlet of the meter.
- 6) Customer shall promptly notify Company of any leaks in the pipeline or tap facility.
- 7) If the farm tap Customer's gas rate schedule is not otherwise governed by an existing producer or right-of-way contract, then the Customer shall pay the rates in this tariff applicable to service off the pipeline supplying gas.

RULES AND REGULATIONS

STANDARDS OF SERVICE

AD. UTILITY SYSTEM OPERATION & MAINTENANCE

The Company will construct, operate, and maintain its natural gas delivery systems in such manner as to furnish safe, adequate, and continuous natural gas service in accordance with the Rules & Regulations and the Operations & Maintenance Plan of the Company.

The Company will exercise reasonable diligence and care to furnish and deliver a continuous and sufficient supply of natural gas and to avoid any shortage or interruption. However, the Company shall not be liable for interruption, shortage, or insufficiency in the supply of natural gas, or for any injury, loss, or damage caused thereby, if same is due to causes beyond the control of the Company. These causes include but are not limited to accidents, breakdown of equipment, operations of supply pipelines and gas production facilities, storms and acts of God, civil disorders and authority and orders of government.

The Company will have the right to temporarily suspend the delivery of natural gas whenever necessary for the purpose of making repairs or improvements to its system. Whenever possible, the utility shall plan its work to minimize the disruption of service.

Interruptions of service will not relieve Customer from any charges for service actually provided by Company, nor will accidents to or failures of Customer's equipment or facilities not due to fault of Company, relieve Customer of payment of minimum charges under the rate or contract applicable.

AE. TESTING EQUIPMENT

Meters will be tested using a certified bell prover. Pressure gauges used for gas measurement will be verified annually. The reference instruments used in calibrating the bell prover, pressure gauges, and other equipment shall have a higher degree of accuracy than the equipment being tested, which accuracy shall be traceable to the National Bureau of Standards.

AF. METER ACCURACY

The Company will exercise reasonable means to determine and maintain the general accuracy of all natural gas meters in use. All meters will be tested for accuracy of adjustment and registration before installation and will be tested periodically in accordance with the test schedule set forth by the Company. If inaccuracy is found such meters shall be adjusted to register within one per cent of accuracy when metering gas at twenty per cent (20%) of its rated capacity at one-half inch of water column differential pressure.

Rules and Regulations

AG. ROUTINE METER TEST SCHEDULES

The Company will routinely test its natural gas meters in accordance with the PSC's regulations.

AH. OTHER METER TESTS

The Company may test any of its meters at any time.

Upon written request of a Customer, the Company will test the accuracy of the service meter installed at Customer's premises. Any meter so tested will be considered accurate if the accuracy of the meter is within 2% plus or minus the calibrated test meter. There will be no charge to the Customer if the meter has not been tested within the past 12-month period, or if the meter proves to be inaccurate.

If any meter so tested is found to be more than 2% fast, the Company will adjust the natural gas used, as measured by such meter, by such percentage that the meter was found to be in error. The Company will re-bill the adjusted amount for a period of one-half the elapsed time since the last previous test, but not for more than six months. The Company will refund to Customer the difference between the amount paid by the Customer and the adjusted bills.

If any meter so tested is found to be more than 2% slow, the Company will similarly adjust the natural gas used for one-half the untested period up to six months, and may collect from the Customer the difference between the amount paid by the Customer and the adjusted bills.

If any meter is found not to register any gas usage for any period, the Company may collect for the natural gas estimated to be used but not registered on the meter. Estimated use shall be calculated by averaging the amounts used under similar weather or operating conditions during the period immediately preceding or subsequent to the period of non-registration, or over a corresponding period in a previous year. The period of time for which collection for non-registered gas service may be made shall be limited only by the date on which the meter is determined to have become defective.

AI. BILLING

The Company will exercise all reasonable means to assure accurate computation of all bills for natural gas service. If billing errors occur, Company shall refund to Customer the amount of any overcharge and shall have the right to collect from Customer the amount of any undercharge, retroactive a maximum of six months prior to the date of such billing error.

Rules and Regulations

AJ. DEFINITION OF A CUBIC FOOT OF GAS

- 1) For purpose of testing natural gas, a standard cubic foot of gas shall be taken to be that amount of gas which occupies a volume of one cubic foot, dry, at a temperature of 60 degrees Fahrenheit and under an absolute pressure of 14.73 pounds per square inch.
- 2) For the purpose of volumetric measurement of gas to a Customer, a cubic foot of gas shall be taken to be the amount of gas which occupies a volume of 1 cubic foot under the conditions existing in such Customer's meter as and where installed. When gas is metered at a pressure in excess of 4 ounces above average local atmospheric pressure, a suitable correction factor shall be applied to provide for measurement of gas as if delivered and metered at a pressure of 4 ounces above average local atmospheric pressure.

AK. HEATING VALUE

The Company will endeavor to maintain a consistent average heating value of natural gas sold by the Company. Each individual system has different sources of supply which range in heating value from 1,000 to 1,200 BTU per standard cubic foot. If necessary to supplement the supply of natural gas, the Company may, at its sole discretion, supply a mixture of liquefied natural gas, liquefied petroleum gases and air to deliver a mixture compatible with the gas-using equipment in each system.

AL. THERM BILLING

[Reserved]

AM. DELIVERY PRESSURE

The Company will maintain the gas pressure at the outlet of the meter with as little variation as practicable. For most customers, gas will be delivered at a standard pressure as close as practicable to 4 ounces per square inch above the average local atmospheric pressure.

Gas may be delivered at higher pressure at Customer's request or where operating conditions are such that the Company deems a higher pressure is necessary. Each Customer shall install and maintain at its expense any such additional pressure or flow-regulating equipment. Company reserves the right to specify the pressure at the delivery meter.

AN. SERVICE EXTENSION POLICY

The Company will make extensions from its existing distribution mains in all of its service areas in accordance with 807 KAR 5:022, Section 9. All extensions will be made dependent on the economic feasibility of the extension. Title to all extensions shall be and remain with the Company. In the event a deposit is placed with the Company, the amount of the refund shall not exceed the original deposit, plus accrued interest. Nothing shall be construed as to prohibit the Company from making at its expense greater extensions to

GAS COST ADJUSTMENT CLAUSE

Determination of GCR

The Company shall file a gas cost recovery rate (GCR) with the Commission at least 30 days prior to the first day of each calendar quarter. The GCR shall become effective for billing for service rendered on and after the first day of each calendar quarter.

The gas cost recovery rate is comprised of:

1. The expected gas cost (EGC), on a dollar-per-Mcf basis, which represents the average expected cost of purchased gas based on 12 months of actual usage.
2. The actual adjustment (AA), on a dollar-per-Mcf basis, which compensates for differences between previous quarters' expected gas cost and the actual cost of gas. The AA shall equal the sum of the AA for the reporting period and for the preceding calendar quarters.
3. The supplier refund adjustment (RA) on a dollar-per-Mcf basis, which reflects the refunds received from suppliers during the reporting period plus interest at a rate equal to one-half of one percent below the average 90-day commercial paper rate for the twelve-month period. In the event of any large or unusual refund, the Company may apply to the Commission for the right to depart from the refund procedures set forth herein.
4. The balance adjustment (BA) on a dollar-per-Mcf basis, which compensates for any remaining under- or over-collections which have occurred as a result of prior actual, refund, and balance adjustments.

CANCELLED

RULES AND REGULATIONS

The GCR will be added to or subtracted from the latest base tariff rates prescribed by Commission Order in the tariff rates stated on each applicable rate sheet within this tariff.

Definitions

For purposes of this tariff:

1. "Average Expected Cost" is the cost of purchased gas which results from the application of supplier rates currently in effect, or reasonably expected to be in effect during the calendar quarter, on purchased volumes for the most recently available twelve-month period, divided by the corresponding sales volume. In the event that line loss exceeds 5 percent, purchased volumes for the twelve-month period shall be calculated as: Sales volume / .95. Where the calculations require the use of volumes used during a given period, and those volumes did not exist for a particular source for the entire period, or the Company expects the volumes to change substantially, the Company may make appropriate adjustments to its calculations. Any adjustment of this type shall be described in the quarterly GCR application.
2. The "GCR" is the total of the expected gas cost and all adjustments.
3. The "Calendar Quarters" are: 1st January, February, and March; 2nd April, May, and June; 3rd July, August, and September; 4th October, November, and December.
4. "Reporting Period" means the three month accounting period that ended approximately 60 days prior to the filing date of the updated gas cost recovery rates, i.e., the calendar quarters ended March 31, June 30, September 30, and December 31 of each year.

This agreement and assignment made and entered into, this the 4th day of October, 1971, by the First Baptist Church of Forest Hills, Kentucky, party of the first part, and Belfry Gas Company, Inc., party of the second part:

The First Baptist Church of Forest Hills, Kentucky, does hereby sell and assign to Belfry Gas Company, Inc. of Allen, Kentucky, a pipe line of two inch and one and one-half inch in diameter, from the First Baptist Church at Forest Hills, Kentucky, to a connection point on City Service Company pipe line a distance of approximately 3,000 feet for the price of \$1,100.00 cash in hand paid.

The Belfry Gas Company does hereby agree to furnish gas to the First Baptist Church and parsonage as long as they have service available in this area at a price of .35¢ per thousand cubic foot.

In the event that Belfry Gas Company does not have gas available in this area, said Belfry Gas Company does hereby agree to sell the same line back to the First Baptist Church for a price of \$500.00.

Dear Mr. Kinzer:

Re: Forest Hills Baptist Church

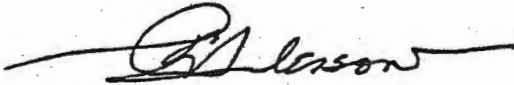

We are attaching herewith, a copy of agreement and assignment, as prepared by your firm and acknowledged by both parties thereto, in October, 1971.

We realize that we have been billed at the regular rate for several months and our bill remains unpaid for that reason.

Our Trustees would like to make an appointment with you to discuss this matter and attempt to reach a fair and equitable settlement of this matter. Of course, any agreement that we reach, will have to be approved by vote of the Church in a regular business session.

Please contact me at 606+237-6050 or 237-7305 to arrange a meeting, or contact our Pastor, Bob Simpkins, at the church phone, 237-4892.

Very truly yours,

P. C. Anderson

The difference between the amounts so determined shall be divided by East Kentucky's sales for the most recent 12 months, provided East Kentucky's line loss for the same 12 month period does not exceed 5%. If line loss exceeds 5%, the difference shall be divided by allowable sales calculated as (purchases x .95).
4. A signed and dated tariff sheet showing East Kentucky's proposed rates for service based on the change in supplier rate. An increase in rates shall not be effective with less than 30 days notice unless a waiver is requested and granted.
5. Such other information as this Commission may request for a proper determination of the purchased gas adjustment.

In the event that East Kentucky receives from its supplier a refund, bill adjustment or credit of amounts paid to such supplier in respect of a prior period, East Kentucky will apply to the Commission within 30 days for authority to make adjustments on the rates charged to its customers under this provision as follows:

1. The "refundable amount" shall be the amount received by East Kentucky as a refund. Such refundable amount shall be divided by the Mcfs of gas that East Kentucky estimates it will sell to its customers during the four-month period commencing with the first day of the month following receipt of the refunds, thus determining a "refund factor."
2. Upon Commission approval, East Kentucky will reduce by the refund factor any purchased gas adjustment that would otherwise be applicable during such period.
3. In the event of any large or unusual refunds, East Kentucky shall apply to the Commission for the right to depart from the procedure herein set forth.

RULES AND REGULATIONS

PURCHASED GAS COST ADJUSTMENT CLAUSE

Determination of GCRR

The Company shall file a quarterly report with the Commission which shall contain an updated Gas Cost Recovery Rate (GCRR), as calculated in accordance with the provisions set forth in the Definitions Section hereinafter, and which shall be filed at least 30 days prior to the beginning of each calendar quarter. The GCRR shall become effective for billing for service rendered on or after the first day of each calendar quarter.

Billing

The Gas Cost Recovery Rate to be applied to bills of customers shall equal the sum of the following components:

$GCRR = EGCA + ACA + RA.$

The GCRR will be added to or subtracted from the base rates prescribed by the Commission Order on the Company's latest general rate case and will be included in the tariff rates stated on each applicable rate sheet within this tariff.

Definitions

For purposes of this tariff:

- a. The "Gas Cost Recovery Rate" (GCRR) represents the adjustment calculated quarterly at a time 30 days prior to the beginning of the next calendar quarter and which is to be used for all gas sales during the next calendar quarter. It is the sum of the Expected Gas Cost Component plus the Actual Cost Adjustment plus the Supplier Refund Adjustment as defined and calculated as follows in (b) - (e) hereinafter; i.e., $GCRR = EGCA + ACA + RA.$
- b. The "Expected Gas Cost Component" (EGCA), on a dollar-per-Mcf basis, represents the expected cost of purchased gas for

(Continued)

the next calendar quarter based on 12 months of actual usage. The average expected cost is the cost of purchased gas which results from the application of supplier rates currently in effect, or reasonably expected to be in effect during the calendar quarter, on purchased volumes for the most recently available 12-month period, divided by the corresponding sales volume. In the event that line loss exceeds 5 percent, purchased volumes for the 12-month period shall be calculated as: sales volumes ÷ .95. Where the calculations require the use of volumes used during a given period, and those volumes did not exist for a particular source for the entire period, or the Company expects the volumes to change substantially, the Company may make appropriate adjustments to its calculations. Any adjustment of this type shall be described in the quarterly Gas Cost Recovery Rate application.

- c. The "Actual Cost Adjustment" (ACA) on a dollar-per-Mcf basis compensates for differences between previous quarters' expected gas cost and the actual cost of gas. The ACA shall equal the sum of the ACA for the reporting period and for the 3 preceding calendar quarters. This may also be used to compensate for any over- or under-recoveries remaining from previous actual or refund adjustments after a 12-month period.
- d. The "Supplier Refund Adjustment" (RA) on a dollar-per-Mcf basis reflects the refunds received from suppliers during the reporting period, plus interest at a rate equal to one-half of one percent below the average 90-day Commercial Paper Rate for the 12-month period. In the event of any large or unusual refunds, the Company may apply to the Public Service Commission for the right to depart from the refund procedure herein set forth.
- e. "Calendar Quarter(s)" means each of the four 3-month periods of (1) May, June and July; (2) August, September and October; (3) November, December and January; (4) February, March and April.

CLASSIFICATION OF SERVICE RATE PER UNIT

DEPOSITS

The Company may require a minimum cash deposit or other guaranty to secure payment of bills except for customers qualifying for service reconnection pursuant to 807 KAR 5:006, Section 15, Winter Hardship Reconnection. Service may be refused or discontinued for failure to pay the requested deposit. Interest, as prescribed by KRS 278.460, will be paid annually either by refund or credit to the customer's bill, except that no refund or credit will be made if the customer's bill is delinquent on the anniversary date of the deposit.

The deposit may be waived upon a customer's showing of satisfactory credit or payment history, and required deposits will be returned after one (1) year if the customer has established a satisfactory payment record for that period. If a deposit has been waived or returned and the customer fails to maintain a satisfactory payment record, a deposit may then be required. The Company may require a deposit in addition to the initial deposit if the customer's classification of service changes or if there is a substantial change in usage. Upon termination of service, the deposit, any principal amounts, and any interest earned and owing will be credited to the final bill with any remainder refunded to the customer.

In determining whether a deposit will be required or waived, the following criteria will be considered:

1. Previous payment history with the Company. If the customer has no previous history with the Company, statements from other utilities, banks, etc. may be presented by the customer as evidence of good credit.
2. Whether the customer has an established income or line of credit.
3. Length of time the customer has resided or been located in the area.
4. Whether the customer owns property in the area.
5. Whether the customer has filed bankruptcy proceedings within the last seven years.
6. Whether another customer with a good payment history is willing to sign as a guarantor for an amount equal to the required deposit.

If a deposit is held longer than 18 months, the deposit will be recalculated at the customer's request based on the customer's actual usage. If the deposit on account differs from the recalculated amount by more than \$10.00 for a residential customer or 10 percent for a non-residential customer, the Company may collect any overpayment and shall refund any overpayment by check or credit to the customer. No refund will be made if the customer's bill is delinquent at the time of the recalculation.

¹ Water districts should substitute KRS 74.050 and water associations should substitute KRS 273.392 since these statutes govern the rate of interest to be paid by water districts and associations.

RULES AND REGULATIONS

SPECIAL CHARGES

Late Payment Penalty: Bills for service are due on the 15th of each month. A late payment penalty of 10 percent will be assessed on all bills not paid by the due date. When a penalty is assessed, any payment received will first be applied to the bill for services rendered. Additional penalty charges on subsequent bills will not be assessed on unpaid penalty charges.

Deposits: Where actual usage data is available, the deposit shall be calculated using the customer's average bill for the most recent 12 month period. If actual usage data is not available, the deposit shall be based on the average bills of similar customers and premises in the system.

Interest on Deposits: Interest in the amount of 6 percent will be paid annually on customer deposits. If interest is paid or credited to the customer's bill prior to 12 months from date of deposit, the payment or credit shall be on a prorated basis.

Reconnection Charge: A reconnection charge of \$45 shall be paid before service is restored following disconnection for nonpayment of bills. The charge will also be assessed to customers who request disconnection of service and subsequently reestablish service at the same premise within 12 months.

Connections: A charge of \$45 will be made to install a meter at an existing connection.

Service Charge: A charge of \$15 will be made for a unnecessary field service trip that is requested by the customer. This includes rereading a meter that was found to be read correct. The charge will also be made to collect a delinquent bill after a delinquent notice has been sent to the customer. Only one such trip will be made during a billing period.

RULES AND REGULATIONS

Monitoring of Customer Usage

The Company will monitor the usage of each customer according to the following procedures.

If the annual usage for two periods are substantially the same or if any difference is known to be attributed to unique circumstances, such as unusual weather conditions common to all customers, no further review will be done.

If the usages differ according to the table below and cannot be attributed to a readily identified common cause, the Company will compare the customer's monthly usage records for the 2 month period with the monthly usage for the same months of the preceding year.

If the cause for the usage deviation cannot be determined from analysis of the customer's meter reading and billing records, the Company will contact the customer telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, changes in business volume, or known leaks in the customer's service line.

Where the deviation is not otherwise explained, the Company will test the customer's meter to determine whether it shows an average error greater than 2 percent fast or slow.

The Company will notify the customer of the investigation, its findings, and any refund or backbilling in accordance with 807 KAR 5:006, Section 10(4) and (5).

In addition to the routine monitoring, the Company will immediately investigate usage deviations brought to its attention as a result of its on-going meter reading or billing processes or customer inquiry.

RULES AND REGULATIONS

GENERAL RULES AND REGULATIONS

All gas service rendered by the Company will be in accordance with the Rules and Regulations of the Company which have been approved by the Public Service Commission.

Application for Service:

All applications for service shall be made on the Company's standard application or contract form which shall be signed by the Customer, or his duly authorized agent, and accepted by the Company before any service is rendered.

A separate application or contract shall be made for each class of service at each separate location, or in the event two classes of service are necessary at one location to the same customer the Company may require separate applications.

In cases where unusual construction or equipment expense is necessary to furnish service, the Company may require a contract for a minimum period of one year.

Owner's Consent to Occupy:

In case the Customer is not the owner of the premises it shall be the Customer's responsibility to obtain from the property owner the necessary consent to install and maintain all piping and other equipment as are required for supplying gas service to the Customer. However, the utility shall not require a prospective customer to obtain easements on property not owned by either the prospective customer or the customer's landlord.

Access to Premises:

The Company shall have the right of access to the Customer's premises at all reasonable times for the purpose of installing, reading, inspecting, repairing or removing its meters, regulators or other equipment used in connection with its supply of gas service or for the purpose of turning on or shutting off the gas supply when necessary and for all other proper purposes, or for determining any violation of either the rules and regulations of the Company, or other regulatory body or agency relating to the use of natural gas.

RULES AND REGULATIONS

Company's Equipment and Installation:

The Company shall furnish, install and maintain at its expense the necessary service connection extending from its main to the Customer's nearest curb or property line.

The Company will furnish, install and maintain at its expense the necessary meter, regulator and connections. Whenever practical, in the judgement of the Company, the location will be as near as possible to the supply main and outside of buildings. Suitable site or location for the meter, regulator and connections shall be provided by the Customer, and the title to the equipment shall remain in the Company, with the right to install, operate, maintain and remove same.

Customer's Equipment and Installations:

The Customer shall furnish, install and maintain at his expense the necessary service line extending from the Company's service connection at the curb or property line to the building or place of utilization of the gas.

The installation of the Customer's service line shall be made in accordance with the requirements of the constituted authorities and the Company's specifications covering location, installation, kind and size of pipe, type of pipe coating or wrapping and method of connecting the joints of pipe. The location shall be the point of easiest access to the Company. The Company shall be advised and shall inspect the installation of any and all service lines prior to backfilling.

Metering:

The gas consumed shall be measured by a meter or meters to be installed by the Company upon the Customer's premises. If more than one meter is installed for the same or different classes of service at different locations on the Customer's premises, each meter shall be considered separately in calculating the amount of the bills.

RULES AND REGULATIONS

The Company cannot and does not guarantee either a sufficient supply or an adequate or uniform pressure of the gas supplied, except as mandated by the Public Service Commission, and shall not be liable for any damage or loss resulting from inadequate or interrupted supply or from any pressure variations when such conditions are not due to willful fault or neglect on its part.

Monthly Bills:

Bills for gas service are rendered monthly unless otherwise specified. The term month for billing purposes shall mean the period between any two consecutive readings of the meter by the Company, such readings to be taken as near as possible every 30 days.

Bills are due upon rendition and shall be due and payable within a period not exceeding ten days from receipt.

Service shall be subject to disconnection if bills are not paid in full within days of the mailing of the original bill. The Customer will be sent a delinquent notice not less than 10 days prior to termination. The notice will set out information, including name and telephone number of federal and state programs that will offer assistance in paying of utility bills under certain conditions.

If the Company is unable to read a meter due to the weather or other conditions the Customer will receive an estimated bill. The bill will be clearly marked as estimated.

Measurement Base:

The rates of the Company are based upon gas delivered on a basis of four (4) ounces per square inch above an assumed atmospheric pressure of fourteen and four tenths (14.4) pounds per square inch, or fourteen and sixty-five hundredths (14.65) pounds per square inch absolute pressure, at an assumed temperature of sixty (60) degrees Fahrenheit.

RULES AND REGULATIONS

All gas measured at pressures higher than the standard pressure for low pressure distribution systems shall be corrected to a pressure base of fourteen and sixty-five hundredths (14.65) pounds per square inch absolute.

Character of Service:

The Company will normally supply natural gas having a heating value of approximately one thousand (1,000) Btu per cubic foot and a specific gravity of approximately six tenths (0.6), however, when necessary to supplement the supply of natural gas, the Company reserves the right, at its discretion to supply an interchangeable mixture of vaporized liquified petroleum gas and air, or a combination of same with natural gas.

Assignment of Contract:

The benefits and obligations of any service application or contract shall begin when the Company commences to supply gas service and shall inure to and be binding upon the successors and assigns, survivors and executors or administrators, as the case may be, of the original parties thereto, respectively, for the full term thereof, provided, however, that no application, agreement or contract for service may be assigned or transferred without the written consent or approval of the Company.

When the gas supply has been discontinued or disconnected for non-payment of bills or other violation of the Company's tariffed rules and regulations, the service will not be restored at the same location, or connected at another location, for the same customer under a different contact or name when it is evident the change of name is a subterfuge designed to defraud or penalize the Company.

Renewal of Contract:

If, upon the expiration of any service contract for a specified term, the Customer continues to use the service, the contract (unless otherwise provided therein) will be automatically renewed and extended for successive periods of one year each, subject to termination at the end of any year upon thirty days written notice by either Party.

RULES AND REGULATIONS

Customer's Discontinuance of Service:

Any customer desiring service discontinued or changed from one location to another, shall give the Company three (3) days advance notice in person, by phone or in writing, provided such notice does not violate contractual obligations.

The Customer shall be held responsible for all gas consumed until such notice is received by the Company and three (3) days time allowed to read the meter and render final bill.

Company's Discontinuance of Service For Cause:

The Company has the right to discontinue service to a Customer for violation of its tariffed rules and regulations or for non-payment of bills, however, service shall not be discontinued until the Company has diligently tried to induce the Customer to comply with its tariffed rules and regulations, or has diligently attempted to induce the Customer to pay the bills. After such efforts on the part of the Company, the service may be discontinued only after at least ten days (10) written notice of such invention shall have been given to the Customer by the Company.

Where a dangerous condition is found to exist on the Customer's premises, the service may be discontinued without notice.

Where necessary for construction, maintenance or operation purposes, the Company may temporarily discontinue service to a Customer, however, notice shall be given whenever practical to do so.

The Company may discontinue service to a Customer immediately and without notice where it is discovered that the Customer has been or is using gas without same being partially or wholly measured through the meter or where the gas is, or has been, used fraudulently, or where the Company's equipment has been tampered with. Where the service has been discontinued for any of these reasons, the Company, by written notice to the Customer, may require the Customer, at his expense to make proper changes or corrections as required by the Company before service is restored.

RULES AND REGULATIONS

The Company will not be responsible or assume any liability for any injury, loss or damage which may arise from the carelessness or negligence of the Customer or his agents or representatives.

Turning Off Gas Service and Restoring Same:

The gas service may be turned off at the meter when justified by the Customer or his agent or any constituted authorities but no person, unless in the employ of the gas Company or having permission from the gas Company, shall turn the gas on or restore service.

Special Provisions - Large Volume Customers:

Industrial, Commercial or other Customers using large volumes of gas on a varying basis shall install and maintain at their expense adequate piping and suitable regulating and control equipment to provide reasonable and practical limitation of intermittence or fluctuation in the pressure, volume or flow of gas, and shall so regulate and control their operations and the use of gas hereunder so as not to interfere with gas service being furnished to them or to any other Customers, or with the proper and accurate metering of gas at their or any other location.

Special Rules For Customers Service From Transmission Mains:

In addition to the Standard Rules and Regulations, the following special Rules and Regulations shall apply to all Customers served directly from a high pressure transmission main which is the property of the Company or one of its suppliers:

All service connections to a high pressure transmission line shall be subject to the special requirements, consent and approval of the Owner of said line. In case the connection is to a line not the property of the Company, proper approval must be obtained from both the Owner and the Company.

RULES AND REGULATIONS

A special form application and service contract or agreement shall be executed by the Customer and approved and accepted by both the Owner of the transmission line and the Company prior to the time the tap or connection is made. If the transmission line is owned by the Company only, the approval and acceptance of the Company is necessary.

All meters, regulators, equipment and connections necessary to serve the Customer from a high pressure transmission line shall be installed on the Customer's premises at or as near the transmission line as is practical.

Suitable site or location for the equipment owned by the Company or the owner of the line shall be provided and furnished by the Customer without any expense to the Company or Owner of the line. The Company or Owner of the line shall have the right of ingress, egress and regress to and from this location at any time without any expense or charges from the Customer.

The Customer's service line extending from the outlet of the meter shall be installed and maintained by the Customer at his expense.

The Customer shall notify the Company promptly of any leaks in the transmission line or equipment, also, of any hazards or damages to same.

Customers may be required to send in monthly readings to the Company on suitable forms provided by the Company.

Service to mobile homes. An applicant requesting service to a trailer may be required to pay all costs of connecting service incidental to the installation of service except for the meter and regulator. In addition to this, a deposit of 2/12 estimated annual bill is required to secure payment. All fees to be paid in advance. If service is provided 12 months at the same location, any installation fees in excess of the deposit will be refunded.

Curtailment Order:

In case of impairment of gas supply or partial or total interruption and when it appears the Company is, or will be, unable to supply, at any time, the requirements of all its Customers due to any cause whatsoever the curtailment shall be as follows:

1. Industrial and Commercial Customers, except schools.
2. Schools
3. Residential Customers

Distribution Main Extensions:

All extensions of the Company's system to serve new Customers or to increase service to an existing Customer shall be made under the Rules and Regulations of the Public Service Commission governing such extensions.

Budget Billing

The purpose of this plan is to permit any customer, on an optional basis, the opportunity to equalize payments of natural gas bills rendered during the year.

This plan is available to any customer after satisfying the following conditions:

1. A budget customer shall make application and sign payment agreement acknowledging monthly budget payment amount and average usage.
 - a. The average usage shall be determined by dividing the twelve (12) months usage ending June by 10. The average usage shall be billed at current rates. This shall be the monthly Budget payment. This amount shall be first billed on or about September 1, of each year.

RULES AND REGULATIONS

The monthly Budget payment of customers joining the plan after September 1 will be determined by dividing the estimated use during the succeeding 6 months by 7, based on past experience if available.

- b. The monthly budget payment will be adjusted by the amount of any wholesale rate change made after the first application. the adjustment will be determined by multiplying the average use times the change in the wholesale rate. this amount shall be added to the monthly Budget payment.
- c. The billings in the months of July and August shall be "catch up" months during which any balance or overpayment will be adjusted so that the carry over to the September billing is Zero.

- 2. A budget customer shall be a twelve (12) month customer.
- 3. Any customer in arrears shall not be eligible for this budget plan until all past due accounts are paid in full.
- 4. Any customer failing to make all of his budget payment each month shall be subject to cancellation of his budget payment plan with the full amount of any unpaid balance due immediately. Any subsequent billing will be on a regular customer basis.

RULES AND REGULATIONS

PURCHASED GAS COST ADJUSTMENT CLAUSE

Determination of GCRR

The Company shall file a quarterly report with the Commission which shall contain an updated Gas Cost Recovery Rate (GCRR), as calculated in accordance with the provisions set forth in the Definitions Section hereinafter, and which shall be filed at least 30 days prior to the beginning of each calendar quarter. The GCRR shall become effective for billing for service rendered on or after the first day of each calendar quarter.

Billing

Gas Cost Recovery Rate to be applied to bills of customers shall equal the sum of the following components:

$GCRR = EGCA + ACA + RA.$

The GCRR will be added to or subtracted from the base rates prescribed by the Commission Order on the Company's latest general rate case and will be included in the tariff rates stated on each applicable rate sheet within this tariff.

Definitions

For purposes of this tariff:

- a. The "Gas Cost Recovery Rate" (GCRR) represents the adjustment calculated quarterly at a time 30 days prior to the beginning of the next calendar quarter and which is to be used for all gas sales during the next calendar quarter. It is the sum of the Expected Gas Cost Component plus the Actual Cost Adjustment plus the Supplier Refund Adjustment as defined and calculated as follows in (b) - (e) hereinafter; i.e., $GCRR = EGCA + ACA + RA.$
- b. The "Expected Gas Cost Component" (EGCA), on a dollar-per-Mcf basis, represents the average expected cost of purchased gas for

(Continued)

the next calendar quarter based on 12 months of actual usage. The average expected cost is the cost of purchased gas which results from the application of supplier rates currently in effect, or reasonably expected to be in effect during the calendar quarter, on purchased volumes for the most recently available 12-month period, divided by the corresponding sales volume. In the event that line loss exceeds 5 percent, purchased volumes for the 12-month period shall be calculated as: sales volumes + .95. Where the calculations require the use of volumes used during a given period, and those volumes did not exist for a particular source for the entire period, or the Company expects the volumes to change substantially, the Company may make appropriate adjustments to its calculations. Any adjustment of this type shall be described in the quarterly Gas Cost Recovery Rate application.

- c. The "Actual Cost Adjustment" (ACA) on a dollar-per-Mcf basis compensates for differences between previous quarters' expected gas cost and the actual cost of gas. The ACA shall equal the sum of the ACA for the reporting period and for the 3 preceding calendar quarters. This may also be used to compensate for any over- or under-recoveries remaining from previous actual or refund adjustments after a 12-month period.
- d. The "Supplier Refund Adjustment" (RA) on a dollar-per-Mcf basis reflects the refunds received from suppliers during the reporting period, plus interest at a rate equal to one-half of one percent below the average 90-day Commercial Paper Rate for the 12-month period. In the event of any large or unusual refunds, the Company may apply to the Public Service Commission for the right to depart from the refund procedure herein set forth.
- e. "Calendar Quarter(s)" means each of the four 3-month periods of (1) May, June and July; (2) August, September and October; (3) November, December and January; (4) February, March and April. EFFECTIVE
